PREFACE

THE proper design of a publication of this kind, is to furnish a comprehensive and detailed account of the actual condition of the State, embracing its civil divisions, population, productions, trade, and resources; its public works, its means of general intercourse, and its principal local improvements: its wealth, revenue, and expenditures; the organization of its government, with a record of the persons to whom the administration of that government throughout its various departments is committed; the general scope and character of its legislation, as exemplified and illustrated by its various institutions and methods for the promotion of education, morals, and religionfor the protection and relief of the destitute, infirm, and helpless-for the repression and punishment of disorder and crime-and for the encouragement of enterprise, industry, science, and the arts; in short, a picture of the living, acting, growing commonwealth, with the manifold means and agencies by which its affairs are conducted, its resources unfolded, the business of its people transacted, and the good order, comfort, improvement, prosperity, and happiness of the community secured and advanced.

The multiplied relations and connections that exist between the different portions of the State, and their continually increasing importance to each other as their intercourse extends, all combine to render such a publication not merely interesting to the general or occasional inquirer, but eminently convenient and practically useful, especially to those who are engaged in the professional employments of the community, in the various branches of active business, or are in any way connected with the administration of the laws, or with the management of the more important public and local institutions.

A simple reference to the Table of Contents will show that this Register has been compiled and arranged on the plan and according to the design above indicated; and to all persons employed in public offices, whether of general or local jurisdiction—to attorneys and other agents and ministers of the laws—to merchants, bankers, manufacturers, and men extensively engaged in business of any description, or in the management of important institutions—to all who have occasion to transact affairs at a distance and by correspondence with public officers, or with professional men, or who have occasion to make inquiries about local matters appertaining to places in which they have no personal acquaintance—this Register will be found an exceedingly valuable manual of information of many kinds constantly at hand, and which they can procure in no other way at so small a cost of time, money, or trouble.

Besides the daily convenience and utility of the work to professional and business men, and public officers, the political events and statistics which it records, will render this Register exceedingly convenient and serviceable to politicians and political economists, in assisting their inquiries, and in facilitating their examination of political questions. The value of the work is, it is believed, very much enhanced in this and other respects, by the National

iv PREFACE.

Statistics, and other important matter which it embodies in relation to the National Government and the organization of its various departments. Indeed, in reference to all matters of ordinary interest and convenience, this work may be regarded as constituting a NATIONAL as well as a STATE REGISTER.

In respect to the range of matter embraced in the work, it is believed to be as comprehensive, in reference to the topics, and as minute in point of detail, as its patrons will desire; and as to the accuracy of its statements, it may be truly affirmed that they have been made as exact and reliable as several months of assiduous labor and vigilant care could render them.

There is one more topic, which is regarded as particularly important in this connection, and on which a remark may, it is hoped, be found serviceable both to the publisher and his patrons. The value of such a work is materially enhanced by being regularly and punctually continued from year to year. A single volume, or a Register for only one year, is of little use; it is, in truth, not worth publishing. But if it can be continued punctually and regularly, every successive volume rises in intrinsic value. To the transient convenience of each number for a single year, is gradually added the permanent value of a connected series, till, in the lapse of time, the annual publication becomes a great work of perpetual reference, of the most authentic character and of peculiar interest, from its combination of the two features of contemporaneousness and connected succession. Its Tables of Statistics and Institutions, compiled at first for the transient purposes of the flying year, are by and by converted into the solid materials of everlasting history, and its lists of familiar names, collected for the temporary convenience of current business, are soon transformed into the undecaying records of a departed generation, and muster-rolls of leading men of their times.

Considerations like these, it will be at once admitted, enter into the very essence of the value of compilations like this Register; and they are suggested in the belief that they will be regarded as legitimate grounds of appeal to the public for that patronage, which is indispensable to secure the regular continuance of the publication. If such patronage shall be afforded, the annual continuation of this Register may be depended on; and as its compiler shall become more familiar with the sources of information and the wants of the public, he will be enabled to render his work more and more acceptable and useful.

One more remark, and this Preface will conclude :-

The compiler of this Register has within the past year furnished the public with a Gazetteer of this State. The two publications so entirely harmonize in their objects and in the character of their contents, that they may be fairly regarded as parts of the same general plan, and as calculated, if taken together, to increase the convenience and usefulness of each other: both combined, cover the whole ground of civil geography and local description and statistics.

TIDE TABLE.

The column in the calendar pages which is headed n. w. shows the time of high water for the port of New-York, and is for that tide which immediately precedes the southing of the moon.

The following Table contains the difference between the time of high water at New-York, and a variety of places on the American The time of high water at any of these places may be found by subtracting the difference at the place in question from the time at New-York, when the sign — is prefixed to it; and by adding it when the sign is +. For example, to find the time of high water at Albany, May 8: the column H. w. gives 3h. 41m. evening for the time of high water at New-York; to which add 6h 33m from the Tide Table, and we get 10h. 14m. evening for the time of high water at Albany. the time of high water at Charleston, June 5: the column H. W. gives 2h 12m evening; from which subtract 1h 39m, taken from the Tide Table, and we have 0h 33m evening for the time required.

NOTE. In this Almanac, the phases, and the rising and setting of the Moon, &c. are given in mean time; but the rising and setting of the Sun are given in apparent or dial time, which may be reduced to mean or clock time, by adding thereto when the sun is slow, or subtracting therefrom when it is fast, the corresponding time found in the column entitled sun slow, or sun fast.

Herschell's Weather Table.

The following table is constructed upon a philosophical considerationof the attraction of the Sun and Moon in their several positions respect ing the earth; and confirmed by the experience of many years actual observation, will, without trouble, suggest to the observer what kind of weather will most probably follow the Moon's entrance into any of her quarters; and that so near the truth, that in very few instances will it be found to fail. When it is said, "Very rainy," it is not designed to convey the idea that it will rain all the time, but taking the whole of this quarter of the moon, and one or two of the first days of the next quarter, it will be "very rainy," compared with the general state of the weather for that season of the year; and so of all the other statements.

The Moon's entrance, at full, change and quarters, during six of the afternoon hours, viz. from four to ten, may be followed by fair weather; but this is mostly dependent on the wind. The same entrance during all the hours after midnight, except the two first, is unfavorable to fair wea-

ther, the like, nearly, may be observed in winter.

CHANGE OF MOON.	SUMMER.	WINTER.
If it be new or full moon, or the moon enters into the first or last quarters, at the hour of 12 at noon,	Very rainy	Rain and snow.
Or between the hours of 2 and 4 P M	Rainy II S. or S. W \ Ditto,	Storm. Ditto

STATISTICS OF THE UNITED STATES AND OF THE SEVERAL STATES AND TERRITORIES.

The first permanent settlement in the United States, by the English was at Jamestown, Va. in 1607; which continued an English colony till July 4, 1776. Peace was made and Independence acknowledged by treaty with England in 1783. The articles of Confederation were entered into, in 1777. The present United States Constitution framed in 1787, went into operation March 1st, 1789. Lousiania, comprising all the territory now belonging to the United States west of the Mississippi was purchased of France in 1803; and Florida, of Spain, in 1819. The present number of States is 26; and the Territories now organized will soon make three more. The U. S. seat of government is the city o. Remarks on the Preceding Table,

[Taken from the Regents' Report for 1842.]

Notes .- 1817-18. This winter was long and intensely cold. On the third of March, 1818, the ice moved in a body downwards for some distance, and there remained stationary. The river was not clear until March 25th.

The river closed on the 13th, opened on the 20th, and finally 1820-21. closed December 1. This was one of the four winters during a century, in which the Hudson, between Powles' Hook and New-York, was crossed on the ice. The other three being 1740-41, 1764-65, and 1779-80.

Jan. 11, 1824. The river was clear of ice, and remained so for several

N

1827-28. The river opened and closed repeatedly during this winter. December 21, it closed a second time.

1830-31. Opened in consequence of heavy rains, and closed again on

the 10th of January, 1831. 1832-33. Opened again January 3, closed again January 11.

1834-35. March 17. River open opposite to the city of Albany. March 18. Steamboat John Jay came to Van Wie's Point. Ice at the Overslaugh.

As the river throughout to New-York has not always been clear of ice, on the day stated above, the time at which the first steamboat passed from

New-York to Albany, or vice versa, is also added for a few years. 1835, March 25; 1836, April 10; 1837, March 31, Robert L. Stevens; 1838, March 19, Utica; 1839, March 25, Swallow; 1840, February 25, Mount-Pleasant; 1841, March 26, Utica; 1842, February 6, Telegraph.

CIVIL DIVISIONS

OF THE

STATE OF NEW-YORK.

THE State is divided into 59 counties, which are subdivided into 830 towns, and 9 cities containing 64 wards. These are the municipal divisions, and they are civil corporations, with powers more or less extensive according to their charters as granted and modified from time to time by the Legislature.

There are other divisions more properly termed political. These are the Eight Senate Districts; the counties considered in relation to their representation in the 2d branch of the Legislature; and the Congressional Districts.

The Senate Districts are arranged, every ten years, by the Legislature, acting under a provision for that purpose in the State Constitution, on the basis of a census taken under the same authority; and at the same time and under the same authority, the Members of the Assembly are apportioned among the counties.

The counties respectively comprised in the several Senate Districts are as

follow, in the numerical order of the Districts.

First Senate District .- New-York, Kings and Richmond.

Second Senate District.—Queens, Suffolk, Westchester, Putnam, Dutchess, Rockland, Orange, Sullivan and Ulster.

Third Senate District .- Columbia, Rensselaer, Greene, Albany, Schenecta-

dy, Schoharie and Delaware.

Fourth Scnate District.—Saratoga, Washington, Warren, Essex, Clinton, Franklin, St. Lawrence, Herkimer, Montgomery, Fulton and Hamilton.

Fifth Senate District.—Jefferson, Lewis, Oswego, Oneida, Madison, Otsego. Sixth Senate District.—Chenango, Broome, Tioga, Tompkins, Chemung Steuben, Livingston, Allegany and Cattaraugus.

Seventh Senate District .- Onondaga, Cortland, Cayuga, Seneca, Wayne,

Ontario and Yates.

Eighth Senate District .- Monroe, Orleans, Genesee, Wyoming, Niagara,

Erie and Chantauque.

These Senate Districts, each represented by four Senators, one of whom is elected every year, are intended by the Constitution to be as nearly equal in the number of souls as may be, without dividing counties, in order that the people may be represented as equally as possible in the State Senate; and for the same reason the apportionment of Members of Assembly among the counties is made on a uniform ratio of the number of souls to each Member. The number of Members of Assembly to which each county is entitled under the existing apportionment, is as follows:

Albany, 3	Jefferson,	3	Rockland, 1
Allegany, 2		2	St. Lawrence, 2
Broome, 1	Lewis,	1	Saratoga, 2

3.

The Senate Districts, moreover, respectively constitute the regular bounds of the several jurisdictions of the Circuit Judges, as do the counties the jurisdictions of the Courts of Common Pleas and General Sessions of the Peace.

The Congressional Districts, by which the representatives of the State in the Congress of the United States are elected every two years, are arranged every ten years, according to the apportionments of the national representatives among the states, made by Congress on the basis of the national census. The state is now divided into thirty-four districts, each electing one member of Congress according to the apportionment of the census of 1840, being in a ratio of one representative for every 70,680 persons in each state, computed according to the rule prescribed by the Constitution of the United States.

The following are the Congressional Districts, formed by an act of the

Legislature, September 6, 1842:

First District—Queens and Suffolk counties.

Second District .- Kings and Richmond.

Third District .- First, Second, Third, Fourth and Fifth Wards of the city and county of New-York.

Fourth District .- Sixth, Seventh, Tenth and Thirteenth Wards, do.

Fifth District.-Eighth, Ninth and Fourteenth Wards, do.

Sixth District.—Eleventh, Twelfth, Fifteenth, Sixteenth and Seventeenth

Seventh District .- Westchester and Rockland counties.

### Extract from a Law respecting Elections.

Passed April 5, 1842.

TITLE I .- Of the qualifications, disabilities and privileges of Electors.

δ 1. Every male citizen of the age of twenty-one years, who shall have been an inhabitant of this state one year next preceding any election, and for the last six months a resident of the county where he may offer his vote, is entitled to vote in the town or ward where he actually resides, and not elsewhere, for all officers that now are, or hereafter may be, elective by the people.

§ 2. No man of color shall vote at any such election, unless he shall have been for three years a citizen of this state; and for one year next preceding the election at which he shall offer his vote, shall have been seized and been possessed of a freehold estate of the value of two hundred and fifty dollars, over all debts and encumbrances charged thereon; and shall have been ac-

tually rated and paid a tax thereon.

§ 3. No person who shall have been convicted of an infamous crime, deemed by the laws of this state a felony, at any time previous to an election, shall be permitted to vote thereat; unless he shall have been pardoned before or after his term of imprisonment has expired, and restored by pardon to all the rights of a citizen.

§ 4. Whenever an election shall be held in any city or town, pursuant to this chapter, no declaration by which a suit shall be commenced, or any civil process, or proceeding in the nature of civil process, shall be served on any elector entitled to vote in such city or town, on the day on which such clec-

tion shall be held.

§ 5. No court shall be opened, or transact any business, in any city or town on the day such election shall be held therein, unless it be for the purpose of receiving a verdict or discharging a jury, or the naturalization of foreigners.

TITLE II .- Of general and special elections; the time and purpose of helding

them; and the persons by whom held.

§ 1. General elections are such as are held at the same time in every county, for the election of all, or some of the following officers, namely, Governor, Lieutenant-Governor, senators, members of assembly, sheriffs, clerks of counties, coronors, representatives in congress, and electors of president and vice-president.

§ 2. The register and clerk of the city and county of New-York, shall al-

so be chosen at a general election.

§ 3. Special elections are such as are held only in a particular district or county, at a time when no general election is held, for the choice of one or

more of the officers proper to be chosen at a general election.

§ 4. General elections shall be held on the Tuesday succeeding the first Monday of November in every year; special elections at the times and places of which legal notice shall have been given; but no special election shall be held within forty days previously to a general election.

§ 5. General and special elections shall be held for one day only.

§ 6. Special elections shall be held in the following cases: 1. When an officer other than a Governor, Lieutenant-Governor and elector of president and vice-president, proper to be chosen at a general election. shall not have been chosen by reason of two or more candidates having re-

ceived an equal number of votes for the same office.

2. When the right of office of a person elected to the office of a representative in congress, senator, member of the assembly, sheriff, or clerk of any county, or sheriff, clerk, or register of the city and county of New-York. shall cease before commencement of the term of service for which such officer shall have been elected.

3. When a vacancy occurs in the office of any member of assembly after

the last day of December in any year, and before the first day of April following, if such vacancy shall deprive a county of its entire representation.

4. When in case of an extra session of the legislature, any county shall by a vacancy in the office of member of assembly, occurring between the first day of April, and ten days before the time appointed for such extra session, be deprived of its entire representation.

§ 7. When a special election shall not have taken place as required by law, the vacancy which ought to have been supplied by such election shall be

supplied at the next general election.

§ 8. All vacancies in the office of representative in congress, senator, sheriff and clerk of any county, or sheriff, clerk or register of the city and county of New-York, shall be supplied at the general election next succeeding the happening thereof; but when the term of service of any such officer will expire at the end of the year during which the vacancy in his office shall occur, no person shall be chosen to supply such vacancy; but the usual election shall be held for a new officer to hold during the constitutional term.

§ 9. If a vacancy proper to be supplied at a general election, shall not have been supplied at the general election next succeeding the happening

thereof, a special election to supply such vacancy shall then be held.

§ 10. Special elections in the first case provided for in the sixth section of this Title, shall be ordered by the board of canvassers having the power to determine on the election of the officer omitted to be chosen; and in all other cases, such elections shall be ordered by the Governor, who shall issue his

proclamation therefor.

§ 11. Such proclamation shall specify the county or district in which such special election is to be held; the cause of such election; the name of the officer in whose office the vacancy has occurred; the time when his term of office will expire; and the day on which such election is to be held, which shall not be less than twenty nor more than forty days from the date of the proclamation.

§ 12. The elections in the several cities and towns shall be by election

districts.

TITLE III .- ARTICLE THIRD .- Of elections in cities and towns.

§ 8. The several cities of this state shall be divided by the common council of the said cities respectively, into convenient election districts for the holding of all general and special elections, and all elections of the officers of

such cities who are elective by the people.

§ 9. Every ward in the city containing not more than five hundred voters, shall be an election district; every ward in the city containing more than five hundred voters and not more than eight hundred voters, may, on or before the first Monday of October next, or in any year thereafter, be divided by the common council of such city, if they shall deem expedient, into two districts, to contain, as near as may be, an equal number of voters; and everyward of a city containing more than eight hundred voters, shall, on or before the first Monday of October next, and as often annually thereafter as may be necessary or expedient, be divided by the common council of such city into two or more districts, in such manner as shall be entire within one ward, and shall contain as near as may be, an equal number of voters; and no district shall contain more than eight hundred voters.

§ 15. The supervisor, assessors, and town clerk of each town, shall meet at the town clerk's office in such town on the first Tuesday in September next, at ten o'clock in the forenoon, and form themselves into a board. And they shall, in all cases where any town shall contain more than five hundred electors, divide the same into a convenient number of election districts, so that each district shall be in a compact form within their town, and shall contain not more than five hundred electors, as far as the number can be ascertained. But where any town shall contain less than five hundred electors.

the board may, in their discretion, divide the same into districts.

TITLE IV .- ARTICLE SECOND .- Manner of Voting, and Residence.

§ 7. The electors shall vote by hallot; and each person offering to vote, shall deliver his ballot, so folded as to conceal the contents, to one of the in-

spectors, in the presence of the board.

§ 8. The ballot shall be a paper ticket, which shall contain, written or printed, or partly written, and partly printed, the names of the persons for whom the elector intends to vote, and shall designate the office to which each person, so named is intended by him to be chosen; but no ballot shall contain a greater number of names of persons as designated to any office, than there are persons to be chosen at the election to fill such office.

§ 9. The names of all the persons voted for by any elector, at any election, excepting of electors of president and vice-president, shall be upon one bal-

lot, which ballot shall be endorsed "State."

. § 10. When electors of president and vice-president are to be chosen, a separate ballot shall be given for them, which shall be endorsed "Electors," and shall contain the names of the persons designated by the voter giving the same, to be electors of president and vice-president, or any of them.

§ 11. If at a general election, there be one or more vacancies to be supplied in the office of senator, and at the same election a senator is to be elected for four years, the term for which the person voted for is intended, shall

be designated on the ballot.

§ 12. If at a general election for representatives in congress, any person named in a congress ballot, shall be intended to supply a vacancy in the office of such representative, the ballots shall designate the congress for

which each person is intended to be chosen.

§ 21. No person shall be deemed to have lost or acquired a residence by being a student in a college, academy, or any seminary of learning; nor by living in any poor house, alms house, hospital or asylum in which he shall be maintained at public expense; nor by being under punishment in any prison, bridewell or penitentiary; nor by being absent from his town or place engaged in the army or navy of the United States, or in navigating any of the waters of this state, the United States, or on the high seas; nor by being a soldier of the United States stationed at any place within this state, and without having acquired any other lawful residence.

ART. FOURTH .- Canvass and Estimate of the Votes by the Board of Inspectors.

§ 35. As soon as the poll of an election shall have been finally closed, the inspectors of the said election in their several districts, shall proceed to canvass the votes. Such canvass shall be public, and shall not be adjourned or postponed until it shall have been fully completed.

§ 36. The canvass shall commence by a comparison of the poll lists, from the commencement, and a correction of any mistakes that may be found

therein.

§ 37: Each box being opened, the ballots contained therein shall be taken out and counted unopened, except so far as to ascertain that each ballot is single. And if two or more ballots shall be found so folded together as to present the appearance of a single ballot, they shall be destroyed, if the whole number of ballots exceed the whole number of votes, and not otherwise.

§ 38. No ballot properly endorsed, found in a box different from that designated by its endorsement, shall be rejected, but shall be counted in the same manner as if found in the box designated by such endorsement, provided that by the counting of such ballot or ballots, it shall not produce an excess

of votes over the number of voters as designated on the poll list.

§ 39. If the ballots shall be found to exceed in number the whole number of votes on the coresponding columns of the poll lists, they shall be replaced in the box, and one of the inspectors shall, without seeing the same, publicly draw out and destroy so many ballots unopened, as shall be equal to such excess.

There are now, (January, 1843,) in operation in the state of New-York, eighty-nine Incorporated Banks, and fifty-two Banking Associations; making a total of one hundred and forty-one Banks, of which twenty-nine are in the city of New-York. The amount of capital, &c., of the respective institutions, are enumerated in the tables which follow.

## RULES AND REGULATIONS OF THE BANKS.

The Banks in the city of New-York, are open every day in the year, from 10 o'clock A. M. to 3 P. M., except Sundays, Christmas Day, New-Year's Day, the Fourth of July, and general holidays appointed by legal authority.

Bills or notes offered for discount, must be enclosed in a letter directed to the cashier, the day before discount day, advising the name

of the person upon whose account it is offered, &c.

The Banks in Albany and Troy, are open every day, except Sundays

and holidays, from 10 A. M. to 2 P. M.

Bills and notes lodged for collection, are collected free of charge to the holders, except when at a distance. When protested, the person

lodging the same pays the charge of protest.

The rate of discount in the Chartered Banks is 6 per cent per annum, (calculating 360 days to the year,) except when notes have over 60 days to run; when beyond that time the Banks have the privilege of charging 7 per cent. The Free Banks are privileged to charge 7 per cent on all discounts. Three days grace are allowed on all notes, and the discount taken for the same.

Deposits and notes for collection, must be entered in the dealer's book at the time when deposited. No interest is allowed on deposits.

^{*} Up to 1830, eight chartered banks, had failed in the State of New-York, with an aggregate capital of \$2,650,000. In addition to the above, there had been a reduction in the capital of sundry banks, amounting to \$2,220,000. Since 1830, ten Safety Fund Banks have failed, with an aggregate capital of \$3,000,000. In the banks chartered between 1835-40, were twelve in number, all incorporated in 1836, having an aggregate capital of \$5,250,000.

#### BANK COMMISSIONERS' REPORT.

Extracts from the Annual Report of the Bank Commissioners, dated, Albany, January 30, 1843.

Since the summer and fall of 1839, a diminished movement has been taking place in the operations of our banks; which from its general and progressive character fully indicates the influence of causes acting with great power upon the business of the country, and contracting the use of money

for commercial purposes within the smallest possible compass.

On the 1st of Jan. 1840, and after the second suspension of the banks, south and west of New-York, which occurred during the succeeding fall, the returns exhibited a diminution of loans and discounts, on the part of the ninety chartered banks of the State, to the amount of \$15,512,000 — and a reduction of the circulation of \$8,743,365, as compared with the reports of the same institutions on the first of January, 1839. Although a slight increase took place during the year 1840, yet the process of contraction has been steadily going forward to the present period, in conformity to the general depression of business, and the prostration of almost every branch of industrial enterprise. The great depreciation in the prices of the staple agricultural products, has materially contributed to keep down the discounts and circulation. The capital now required for their purchase is small in amount, as compared with those periods when money was abundant, and the business of the banks generally extended.

Many of our banking institutions are seriously laboring under the consequences of the unwise expansion of former years; and it will require the utmost prudence, as well as good fortune on their part, before they can regain their original position. A large amount of discounted debt, suspended for several years, and wholly unavailable for banking purposes, still remains—and it is to be feared that the continued diminution in the value of property will eventually render many of the securities worthless, which have been heretofore considered sound, and abundantly sufficient to protect the banks against ultimate loss. It is, however, gratifying to discover, by reference to the statements, that the present reduced action of many of the banks at least does not arise from any want of ability to extend their loans, or sustain an increased circulation, if required to do so by

the fair demands of business.

It must be evident to all, that a material extension in their operations at this time by the discount of accommodation paper, or any other not of a strict commercial character, could not fail to do ultimate injury to their stockholders and the public. Indeed so far at least as many of the country banks are concerned, no single cause has heretofore contributed in so great a degree to their embarrassments and the sacrifices which in times of pressure they are compelled to incur, as loans upon paper not founded on actual business transactions. Such paper, however well secured, can seldom be depended on in meeting redemptions and those other engagements, which on the part of every well managed bank must be fulfilled with the utmost promptitude. In some cases which have come under our observation, the discounted debt has been found to be sound and free from all objection in regard to its entire security, but at the same time so unavailable in its convertability into cash, as to render it valueless for all practical or useful purposes in sustaining the credit of the bank. When this state of things exists, it will be found that serious sacrifices often become necessary before the bank can meet its liabilities; and that the time of its officers, which should be devoted to its immediate supervision at home, is often occupied in making expensive journies to Albany or New-York, and in devising and consummating extraordinary and ruinous modes of raising money, and in all cases subjecting the stockholders to the loss accruing from the transaction.

Again, we conceive that loans upon accommodation paper causes at all times great injury to the public at large, by creating those excessive issues in bank circulation which have heretofore taken place, and may be regarded as one of the causes of the present depression of business throughout the country. It may be assumed as an undeniable axiom in the business. of banking, that such issues are always excessive; and that in precise proportion to their amount, they derange the just relations of currency and trade, produce sudden and unnatural expansion in prices, and disorganize the various business interests of society.

The present reduced movement on the part of those banks having abundant means on hand, may therefore be regarded as evidence of their prudent administration by a proper conformity to the state of things existing around them, and as exhibiting a determination to forego the acquisition of

present profits for the sake of their own ultimate safety.

The condition of the banks in the city of New-York, the great centre of the commercial and moneyed transactions of the State and Union, will appear by their statements to be uncommonly strong in the possession of an extraordinary amount of specie and other funds, whilst their liabilities, exclusive of capital stock and deposits, are but nominal. The state of these institutions presents gratifying evidence, that when the time shall arrive in which extensive moneyed facilities may be required in conducting the operations of a renovated and prosperous commerce, no want of means will exist in that quarter at least in giving such operations the necessary impulse

and efficiency.

The domestic exchanges within the limits of the State have, during the past year, not only been uniform but also at rates so low, and so easily effected at all times, as to indicate a healthy, although a depressed, action in the moneyed affairs of the banks. The law of the 4th of May, 1840, requiring the country banks to keep agents in New-York and Albany, for the redemption of their circulating notes, has worked with admirable effect in preserving uniformity in the rates of discount, and in preventing those impositions which were before too frequently practised upon the public. It is well known that prior to this period, it was not unusual to discredit the notes of sound institutions, for the sole purpose of purchasing them in market; in this manner the inequality in the rates of discount between the notes of the various country banks became dependant upon causes entirely fictitions, and having no reference to the actual state of the institutions by which they were issued. This law has also effectually checked the establishment of associations under the general banking law, at places so remote and difficult of access, as to render the transmission of the notes for redemption vexations and expensive.

During the year ending on the first of the present month, [January] the loans and discounts of all the CHARTERED BANKS* now remaining, and being eighty-five in number, as compared with the same banks on the first of

January, 1842, have diminished \$2.959,602.

The discounted debt of forty-three banking associations has increased within this period \$974.263, making an aggregate of diminution in all the banks of the State, of \$1,985,339.

The circulation of the chartered banks has also been reduced \$2,027,810 and the free banks \$60,794, showing the whole decrease of circulation to be \$2,088,604.

The specie of the chartered banks has increased \$2,094,602, and the free banks \$974,000, making the whole increase of specie \$3.068,602.

The table below will exhibit a comparative view of the resources and

liabilities of all the chartered and free banks for the last two years, excluding eight, viz: the La Fayette Bank in the city of New-York, the Watervliet Bank, the Clinton County Bank, the Bank of Lyons, and the North River Bank whose charter has expired, and which has since gone into operation under the general banking law, together with the James Bank, the Farmers' Bank of Malone, and the Manufacturers' Bank at Ulster—which last named association did not make any returns last year.

banks, embrace a large amount of treasury notes.

The reports of the 81 SAFETY FUND BANKS* exhibit nominal profits on hand to the amount of \$3,359,772. On deducting therefrom the aggregate expenses and contributions to the fund amounting to \$1,484,718, the balance will be \$1,875,054, being a little over 6 per cent.

To determine the circulation of all the banks, the amount of notes of

other banks contained in the statements should be deducted.

This account would then stand, in relation to the specie in the banks, as follows:

# STATE CANALS.

The Canals constructed, or in course of construction by the State, and belonging to it as public property, are nine in number; and in the following general account of them, the statutory designations of them are adopted:

#### ERIE CANAL.

This Canal as first built, was commenced with public ceremonies, July 4, 1317; and it was finished, ready for navigation in its whole extent, from Lake Erie at Buffalo, to the Hudson River at Albany, in October, 1825, at the total cost, including interest and loans, and all other disbursements, of \$10,731,595. Its main trunk, 40 ft. wide at top, 28 ft. at bottom, and 7 ft. in depth, with 4 ft. depth of water, is 363 miles long, exclusive of feeders and side-cuts. It had only 84 lift locks, both ascending and descending, giving a rise and fall of only 692 ft.; and but 3 summit levels, viz: the Rome level, 69 miles long, extending from Frankfort, 9 miles east of Utica, nearly to Syraeuse; the short Jordan level, between the valley of the Onondaga Creek at Syracuse, and that of the Seneca River at Montezuma; and the Lake Erie level, extending from Buffalo to Lockport. The Oak Orchard level, also, though not a summit, is 60 miles long, extending from Rochester to the foot of the Mountain Ridge, at Lockport. The lowest level on the line, from which the canal ascends each way, is at the Montezuma Marshes. The heights of the more important levels above the Hudson, at Albany, are as follows:

The Rome level, 425 ft.; the Oak Orchard level, 506 ft.; and the Lake Erie level, 561 ft. The principal Aqueducts on the original work, were as follows: Two, consisting of wooden trunks supported by stone piers, ncross the Mohawk river, between the Cohoes Falls and Schenectady; one, made wholly of stone, across the Mohawk at Little Falls; and the other, consisting wholly of stone, also, and much the most massive and costly, across the Genesee river at Rochester. The other features of the original work most remarkable, either for difficulty of execution, or, for their imposing aspect when finished, were, the section crossing the great marshes at Montezuma, traversed by the Scheea and Clyde rivers, and during the exeavation of which, it was necessary to keep pumps driven by horse power at work night and day, for a distance of several miles; the great Embankment, 72 ft. in perpendicular height, with a base of about 250 ft. in width, across the ravine of the Irondequoit creek, a few miles east of Rochester; the rock excavation through the Mountain Ridge, at Lockport; and the pier and dam at Black Rock, in the Niagara river.

On the 11th of May, 1835, the Legislature passed an act for the enlargement of this canal. By that act, the size of the enlargement and the general outlines of the work, were submitted to the determination of the Canal Board, a body, composed of the Board of Canal Commissioners, and the Commissioners of the Canal Fund. After such investigation as was deemed sufficient, the Canal Board in 1836, decided, that the dimensions of the enlarged canal should be, as follows: Width at top, 70 ft., at bottom, 42 ft., perpendicular depth, 10 ft., with 7 ft. depth of water; the locks to be in pairs, each lock having its chamber, 110 ft. long, by 18 ft. wide.

The enlargement having been determined on, operations were commenced in 1836, and a great amount of work has been done. The Commissioners have wisely availed themselves of the occasion, to improve the location of the canal in many places; straightening the curves wherever practicable, shortening the distance, and diminishing the total quantity of lockage. In this way, the whole length of the enlarged canal will, when done, be about 360 miles, instead of 363; and taking each pair of locks as one rise, or fall, the number of locks will be 71, instead of 84. This

saving of lockage is effected among the short levels, the long ones remaining essentially as before.

The number of other structures of masonry will be increased. There

will be 37 aqueducts, and 5 weigh locks.

The cost of the enlargement is estimated at about 23 millions. The boats chiefly employed for transportation on the original canal, average about 55 to 60 tons. The enlarged canal will accommodate boats of the average capacity of about 150 tons; and, as the cost of towing will be increased in a much smaller ratio than that of the tonnage, the price of freights will be very materially diminished. This diminution is estimated at about 50 per cent.

The amount of business done on this canal, and the annual revenue it has yielded, are exhibited in the tables that follow these general remarks.

#### CHAMPLAIN CANAL.

This canal connects with the Lake Champlain, at Whitehall, and with the Hudson river, at Waterford. It was commenced in October, 1817, and completed in November, 1819, at a cost of \$1,179,872., It is 64 miles long; of the same dimensions in other respects as the original Eric canal, with a total quantity of 188 ft. of lockage, and 21 locks, of which 54 ft. distributed in 7 locks, include the rise from the lake to the summit level, extending from Fort Ann to Fort Edward, and 134 ft. distributed in 14 locks, include the descent to the Hudson at Waterford.

On its summit level this canal receives a navigable feeder 13 miles long, drawing its supply from the Hudson at a point about 2 miles above Glen's

Falls, and called the Glen's Falls Feeder.

At Waterford, where the canal unites with the Hudson, the river is converted into a spacious basin 3 miles long, by means of a dam situated at the northern limit of Troy, and at the easterly end of which is a sloop-lock, by which the navigation of the Hudson is preserved to Waterford. From Waterford, also, a canal called the Junction canal, 3 miles long, and crossing the Mohawk a little below the Cohoes Falls, connects with the Eric canal at Cohoes village; thus completing the links that unite the northern and western trade with each other, and with that of the Hudson.

#### OSWEGO CANAL.

This canal, connecting with the Erie canal at Syracuse, and with Lake Ontario at Oswego, was commenced in 1826, and completed in 1828, at a cost of \$525,115. It is 38 miles long; about half its length, however, being in the Oswego river, converted into canal, or slack-water, by means of 8 dams and a tow-path on the river bank. The total quantity of lockage is 123 ft. distributed among 18 lift-locks, all descending from Syracuse to Oswego. So far as the canal is wholly an excavated work the dimensions of its cross-section are the same as those of the Erie canal.

There is, also, a towing path made by the State along the bank of the Seneca river, from its junction with this canal to Baldwinsville, by which the navigable waters of that stream are made available; and a similar work has been recently done on the Oneida river, to connect the navigable waters of that stream and the Oneida lake with the Oswego canal.

#### CAYUGA AND SENECA CANAL.

This work begins in the village of Geneva, at the outlet of the Seneca lake, and following the valley of the Seneca river, is fed by its waters, till, after sending off a side cut of 2 miles to the Cayuga lake, at East Cayuga, it enters the bed of the river, and so continues to Montezuma, where it joins the Erie canal on the marsh level. The whole distance from Geneva to Montezuma is 21 miles, about half of which consists of canal proper, and the other half of slack water navigation in the river. The whole descent from Geneva to Montezuma is 74 ft. divided among 12 locks. The

canal was commenced in 1827 and finished in 1829, at the cost of \$214,000. This work, be it remembered, is the common thoroughfare for the trade of the Cayuga, Seneca, and Crooked lakes, the Chemung canal, the Owego and the Blossburg railroads, and the whole basin of the Upper Susquehannah and its wide-reaching tributaries; and it is obviously destined to become, at no distant day, very productive, from the carriage of coal, gypsum, and salt, and the inevitable expansion of a trade, springing from such resources.

#### CROOKED LAKE CANAL.

This canal, commenced in 1830 and finished in 1833, connects Crooked lake near Penn-Yan, with the Seneca lake at Dresden; is 8 miles long, has a descent of 269 ft., distributed among 28 lift-locks, and cost \$137,000. The locks, which are of wood, will soon require to be in great part rebuilt.

#### CHEMUNG CANAL.

This canal, commenced in 1830 and finished in 1833, connects the Seneca lake at its head, with the Chemung river, a branch of the Susquehannah, at Elmira, is 23 miles long, besides a navigable feeder 16 miles long, extending from the summit level at Fairport, formerly called Horse-Heads, to Corning, situate also on the Chemung, westerly from Elmira, and there connecting with the railroad which runs to Blossburg, in Pennsylvania. The ascending and descending lockage on both the canal and feeder, which together are 39 miles long, is 516 ft. divided among 52 locks. Both works cost \$344,000. At Blossburg is an inexhaustible mine of bituminous coal of excellent quality, and the coal trade, which has commenced very favorably, promises to become a source of much revenue to this canal. The locks are of wood, and within the last year contracts have been made to rebuild them at a cost, including some other improvements, of a little under \$300,000.

#### CHENANGO CANAL.

This canal extends from the Eric canal at Utica, by way of the village of Clinton, on the Oriskany creek; thence up the valley of that creek to the summit level; thence to the valley of the Chenango river, which it follows to the village of Binghamton, on the Susquehannah. It is 97 miles long; was commenced in 1833 and finished in 1837, at a cost of \$1,737,703. The lockage from Utica to the summit is 706 ft., and thence to Binghamton, 303 ft., the whole divided among 116 lift-locks, 2 of which are built of stone, and the other 114 of wood and stone, called composite. This canal is furnished with 7 reservoirs, consisting of natural ponds, having their original capacity increased by embankments and dams, furnished with flumes and gates to regulate the discharge.

#### GENESEE VALLEY CANAL.

The act for building this canal was passed May 6, 1836, and in the succeeding summer the work was commenced. The whole line, from Rochester, where it connects with the Erie canal, to Olean, on the navigable waters of the Allegany river, is 108½ miles long. At a point 4½ miles south of Mt. Morris, a branch canal extends to Dansville, 11 miles. In September, 1840, the Division from Rochester to Squakie Hill, 36 miles, was opened for navigation; and in September, 1841, the Dansville branch together with about 5 miles more of the main trunk, was finished, making the whole distance now in use, from Rochester to Dansville, 52 miles. On this distance there are 19 lift-locks, besides a great amount of other masonry, and the whole cost of construction, exclusive of all other charges, is stated in the annual report of the commissioners, of January, 1843, at \$1,399,291.90.

The same report states that another portion of the line, 581 miles long

with 92 locks thereon, has been put under contract at an entire estimated cost of \$2,772,304.17, on which the work done is stated at \$1,717,850.32, of which all but \$49,152.02 has been paid, leaving work yet to be done to the estimated amount of \$1,054,453.85. Besides the two portions mentioned, one mile has been completed at a cost of \$53,104.81, but is not in use. Of the entire line only 7 miles have not yet been put under contract.

The most remarkable work on this canal is the tunnel in Portage. Its length is to be 1,180 ft. by 27 ft. in width, and 20 ft. in height; and for most of the distance the roof will require to be supported by an arch of masonry.

of the distance the roof will require to be supported by an arch of masonry. The cost of this canal, excluding the 7 miles not yet under contract, is estimated at \$4,224,700.88; and including the 7 miles, the total cost will probably not fall much short of 5 millions.

### BLACK RIVER CANAL AND ERIE CANAL FEEDER.

This work was commenced under an act of April 19, 1836, in the summer of that year. It is to open a navigation from the Erie canal at Rome to Carthage, in Jefferson county. From Rome the line passes up the valley of the Mohawk to the Lansing-Kill, which it follows to the summit level in Boonville, and then passes on to the High Falls in the Black river, in Turin. From that point to Carthage the navigation is to be continued by improving the Black river. The length of the canal is 35 miles; of the improved river navigation,  $42\frac{1}{2}$  miles; and a navigable feeder 10 miles long, from the Black river, is to enter the summit level of the canal at Boonville; making the whole length of this artificial navigation  $87\frac{1}{2}$  miles.

The ascent from the Eric canal at Rome to the summit in Boonville, is 697 ft., divided among 70 locks; and the descent from the summit to the High Falls, is 387 ft., divided among 38 locks. The feeder has but one

level.

The commissioners in their annual report of January, 1843, show that the line from Rome to the summit, and the whole of the feeder, being the portions of most immediate importance, were nearly complete. They state the whole length of completed canal to be 14 miles, at a cost of \$446,841.35. A further extent of 28 miles has been commenced, the estimated cost of which amounts to \$1,313,204.78, on which, work to the amount of \$1,228,515.81 has been done, leaving yet to be done an amount of \$4,688.97. Of the canal proper, only 3 miles have not yet been put under contract.

#### DELAWARE AND HUDSON CANAL.

This work belongs to a private company, but the State has a pecuniary interest in it, to the amount of \$800,000 of State stock, loaned to the company, and it is too important in its connection with internal trade, not to be noticed. The work was commenced in 1825, and finished in 1829, extending from the Hudson river up the valley of the Rondout creek, in Ulster; then across parts of Orange and Sullivan counties, to the Delaware river; then along its bank, in all \$4\$ miles, when it crosses to the valley of the Lackawana creek, in Pennsylvania, up which it runs 25 miles, to Honesdale, where it meets a rail-road, running 16½ miles, to the mining village of Carbondale, making the entire route 124½ miles. The portion of this work in this State, was originally constructed by the Hudson and Delaware Canal Co.; and the portion in Pennsylvania, by the Lackawana Canal Co. In 1829, the companies were consolidated by separate acts of the Legislatures of the two States; and the loan of stock, of this State, bearing an interest of 4½ and 5 per. ct. was loaned to the consolidated company, and secured by a lien on the entire work, the cost of which was \$1,875,000. The capital of this company, as originally incorporated, was \$1,500,000, with the privilege of employing one-third thereof for banking purposes, till 1844, when this privileg expires.

It appears from a statement in the Canal Commissioners' Report of 1843, that the difference of time of boats making a trip from Albany to Buffalo and back, between the years 1841 and 1842, was as follows: Average time of making a trip to Buffalo and back in 1841, running time only, was 19 days; in 1842, 15 days-being four days quicker than they ran in 1841.*

It appears also, by a statement from the collector's office at West Troy, that the average time of performing trips to Oswego and back, by the boats of the Troy and Oswego line, was, in 1841, 14 days; and in 1842, 11 days.

There has been a better supply of water than usual from the feeders the past

season, and the enlarged canal has been brought into use at some places where navigation has heretofore been much delayed in times of the greatest business. These circumstances have increased the facilities for navigation; but clearing out the bottom of the canals, raising the banks at places where they were lowest, and equalizing the water on the different levels have been the principal causes of enabling boatmen to make quicker trips and carry heavier loads than in former seasons.

By a statement from the same office it also appears that the average weight of the down cargoes of twelve of the heaviest laden boats of the Buffalo lines, 

The weight of only four of the up cargoes of these boats is given for 1841, For 1842, the average weight of twelve up cargoes of these boats was,..... 59 8-12 "

^{*} The cause assigned for its taking a boat longer in making a trip in 1841, than in 1842, was on account of frequent breaches in the canal, and the water on the levels not being kept at a sufficient height to go along without grounding

NEW-YORK AND ALBANY R. R. Co .- Office 54 Merchants' Exchange, New-York.

Incorporated in 1832 for 50 years. Capital \$3,000,000. Shares 100 dollars each.

This important work is now in a fair way to be speedily completed, although there are some conflicting interests in favor of other routes between the commercial and political capitals of the state. When a railroad between the Cities of New-York, Albany and Troy shall be completed as is contemplated by the above company, it will form a connecting link between the great line of southern railroads and those traversing the state of New-York and the eastern states, from east to west; thereby greatly add to the convenience of the travelling public during all seasons of the year, and be of immense benefit to the city and state of New-York. The distance of the proposed route, from Harlem river to the city of Troy, is 146 miles.
J. J. Coddington, President.
Josiah Rich, V. President.

William Howard, Treasurer.

New-York and Erie R. R. Co.—Office No. 34 Wall-street, New-York. Incorporated April 24, 1832. Capital \$10,000,000. Shares 100 dollars each. The whole length of this road from Dunkirk to Piermont, is 446 miles, thence to the city of New-York by water is 24 miles, making the total distance from Lake Eric to the city of New-York 470 miles. It is finished from Piermont to Goshen, a distance of 46 miles, on which cars run in connection with a steamboat from Piermont to the city of New-York. The work on the unfinished line of this important railroad is for the present suspended for the want of funds, although it has received assistance from the state to the amount of \$3,000,000.

James Bowen, Vice President. Wm. Maxwell, President. Wm. M. Gould, acting Secretary. Edward Pierson, acting Treas'r.

NEW-YORK AND HARLEM R. R. Co.—Office 4 Tryon Row. New-York. Incorporated April 25, 1831. Capital \$2,950,000. Shares 50 dollars each.

The line of this road commences near the City Hall in the city of New-York, and extends north a distance of 8 miles, where it crosses the Harlem river and enters the county of Westchester. It is authorized by an nmen ment of its charter, passed in 1840, to extend their road to the north line of the county of Westehester, a distance of 50 miles, and eastwardly to the line of the state of Connecticut. It is now finished and in operation to William's Bridge, where the line crosses the Bronx river, a distance of 14½ miles from the City Ilall. The fare received from passengers, during the year 1841, amounted to \$99,616 59.

George Law, President. Benjamin Cox, Secretary.

RENSSELAER AND SARATOGA R. R. Co .- Office, No. 6 First-street, Troy. Incorporated in 1832, to endure 50 years. Capital \$300,000. Shares 100

This road extends from the city of Troy, to the village of Ballston Spa; a distance of 234 miles. Finished and put in operation, August, 1835.

George B. Warren, President. Daniel Sackett, Sec'y and Treas'r. L. R. Sargent, Superintendant.

ROCHESTER R. R. Co.

Incorporated in 1931. Capital, \$30,000.

This road extends from the city of Rochester to Carthage, at the head of navigation on the Genesee river; a distance of about 3 miles. The cars are propelled by horse power; first opened for public use, in Jan., 1833.

BLOSSBURG AND CORNING R. R. Was constructed by two incorporated companies: The "Tioga Navigation Company," originally chartered by the Legislature of the State of Pennsylvania, to improve the navigation of Tioga river, but afterwards allowed to build a Railroad; and the "Tioga Coal, Iron Mining and Manufacturing Company," chartered by the Legislature of this State. The former Company, built about 24 miles of the road lying in Pennsylvania, and the latter, about 16 miles lying in New-York; the whole length being 40 miles—extending from the coal and iron mines at Blossburg, to the village of Corning, in the county of Steuben. The New-York company has received aid from the State, to the amount of \$70,000.

The estimated amount of bituminous coal alone, passing over the road

in 1841, was 40,000 tons, which can be increased to almost any amount, as

the demand increases for this useful kind of coal.

# CONTEMPLATED RAIL-ROADS.

#### ALBANY AND GOSHEN RAIL-ROAD.

Incorporated April 12, 1842, with a capital of \$1,500,000.

The proposed line commences at the village of Goshen, Orange county, and passes through the counties of Ulster and Greene, to the city of Albany; it will accommodate most of the principal towns and villages upon the west side of the Hudson river in the above counties, and would be found of much value to many of the towns and villages upon the east side of the river.

The entire length of the line of the road, from the point where it intersects the New-York and Erie Rail-Road at Goshen, to the city of Albany, is ninety-four miles. Estimated cost \$1,528,215.

#### HUDSON AND DELAWARE R. R. COMPANY.

Incorporated in 1830, with a capital of \$500,000.

The route of this road, which is located and partly graded, commences at the village of Newburgh, and runs through the county of Orange into the state of New-Jersey, terminating at a point on the east side of the Delaware river. It is intended to extend the line so as to tap the coal beds of Pennsylvania, intersecting the New-York and Eric Rail-Road at or near Goshen.

#### OGDENSBURGH AND LAKE CHAMPLAIN RAIL-ROAD.

This is a projected work of great importance. In 1838 an act was passed authorizing a survey of the line of the road, which survey embraced two routes, the northern and the southern, or Au Sable route. The northern route commencing at the village of Plattsburgh, on Lake Champlain,

18*

and running westerly through the towns of Malone, Moira, &c., to Ogdensburgh, in the county of St. Lawrence. The length of this route via. Norfolk, is about 120 miles; estimated cost of constructing the same, including engines, &c., is about two millions of dollars. The southern route, although somewhat longer, extends up the valley of the Au Sable, through the northwest angle of Essex county and across Franklin and St. Lawrence counties, terminating at the village of Ogdensburgh.

A still more southern termination has been proposed, and its merits urged in reference to its greater utility and safety in a military point of view, and as passing through the great mineral region of the north; terminate at the village of Sackett's Harbor, situated near the foot of Lake Ontario, where is a good and secure harbor, and a military position of

considerable importance.

OSWEGO AND SYRACUSE RAIL-ROAD COMPANY. Incorporated in 1839, with a capital of \$500,000.

This is a contemplated rail-road, to extend, when finished, from the village of Syracuse to the village of Oswego, a distance of 36 miles. The route has been surveyed and found to be highly favorable to the construction of a road at a comparatively small expense. The wants of the travelling community require the early completion of this road, as it will connect with the great line of railroads at Syracuse, and extends to Lake Ontario on the north. When finished it will form the most expeditious and direct route to the northern part of the state, bordering on the River St. Lawrence and Canada.

SARATOGA AND WASHINGTON R. R. COMPANY.

Incorporated in 1834. Capital \$600,000. Shares 100 dollars each. The line of this road extends from the village of Saratoga Springs to Whitehall, on which there has been about sixty thousand dollars expended in the purchase of lands and grading of the same. The work is at present suspended, although the interest of the state and public convenience require its early completion.

HUDSON RIVER RAIL-ROAD.

An application is now before the legislature (1843,) for a charter to construct a rail-road on or near the eastern margin of the river, from the cities of Troy and Albany to New-York, and petitions have been presented to the senate and assembly, not only from the river towns, but one from the city of New-York, signed by some of her wealthiest capitalists.

Every one concedes the importance of continuing the line of rail-road communication from the west, directly to the city of New-York, our great commercial emporium; the benefit of which would accrue, not to that city alone, but to the trade and commerce of the state,—a very considerable portion of which has recently been diverted to Boston, by the construction

rail-roads between Albany and Boston.

Two routes have been suggested, one through the interior of the counties lying on the eastern side of the river, for which a charter was granted by the legislature about twelve years ago. Another has since been surveyed running on the bank or in the vicinity of the river, and through the river towns, at whose expense the survey was made, and for this route a charter is now asked. The distance from the City Hall in New-York, by the interior line is 149 miles, and by the river route 144 miles, or five miles shorter. The elevation to be passed over on the interior route is 769 feet, and on the river line 215 feet, being 554 feet in favor of the latter. To pass these elevations requires on the inner road, 55 miles of grading at the rate of 30 feet to the mile; and on the other as surveyed, 50 miles graded at 16 and 17 feet to the mile—no grade in the whole distance rising higher than 17 feet, and the line from New-York to Fishkill landing being almost level. The lowest curve required on the river line, and that at a single point, will not be of less radius than 2500 feet; while on the interior line some of the curves run as low as 1250 feet radius.

The charter proposes a capital of four and a half millions of dollars, contemplating that the road shall be constructed in the most permanent manner, equal if not superior to the Boston road, which, with the low grades required, will enable the fast trains to run at the rate of 30 miles per hour, making the running time between Albrny and New-York, about five hours.

In addition to the above, there are other rail-road companies incorporated,-many of which will, no doubt, in process of time, proceed with their contemplated improvements.

# NEW-YORK CITY STATISTICS.

# NEW-YORK CITY FINANCES.

The financial condition of the city of New-York on the 1st May, 1841, was as follows, as will be seen by the Mayor's Message, from which the following statement is taken.

Debt up to the 1st of May last, from which the following appears:	the City
New-York City Stocks of 1820 and '29	e-400 000
Publie Building Stock. $$505,000$$ Less amount held by the Commissioners of Sinking Fund. $$15,000$$	\$408,800
Fire Loan Stock, a contingent liability,	500,000
Commissioners of Sinking Fund	000,000
Less amount held by the Commissioners of Sinking Fund. 122,700  Floating Debt Stock	236,200
Less amount held by the Commissioners of Sinking Fund. 168,210	181,790
Corporation Bonds—a contingent debt	000,000
Water Stocks	7,651,377

The City Stocks which will be held by the Commissioners of the Sinking Fund at the close of the present fiscal year, will be sufficient to cover, and in effect cancel the stock of 1820 and '29, and the Public Building Stock. The Fire Loan Stock and Corporation Bonds are contingent liabilities of the city, for which bonds and mortgages, and other real estate liers, are held by the Commissioners of the Sinking Fund, which can be realized and applied to the liquidation of the debt at any time. These, therefore, may be properly considered as no part of the city debt, but rather as a loan of its credit on full and perfect securities.

The Fire Indomnity Stock is, for the most part, payable in twenty-seven years; the provision for its redemption is an annual tax of \$25,000 to be levied upon the real and personal estate of the citizens, one-half of which tax

would, however, accomplish its redemption in the time fixed.

The Floating Debt Stock is payable at the rate of \$50,000 per annum, to

meet which, a tax of the like sum is annually to be imposed.

It will be seen, therefore, that the principal of all the stocks here mentioned, (and which constitute the entire debt of the city, except that for the construction of the Croton Aqueduct,) is fully provided for, and capable of being redeemed without resort to the revenues of the Sinking Fund after the present year; or, in other words, the proper income of the Sinking Fund, on and after May next, when the Croton water will be introduced, will be applicable, sole-by to the capaciting of the Water Stocks.

ly, to the cancelling of the Water Stocks.

The water debt, as estimated, will reach \$12,000,000. It is computed that the income of the Sinking Fund, as at present constituted, will alone be sufficient to meet and cancel it in forty years. It is to be remembered, too, that the Sinking Fund will, long before that period, be greatly enlarged from the avails of such real estate as the Corporation may sell from time to time."

# Extract from the Comptroller's Report, (1841):

"The provisions already established by law for the payment of this Debt, are ample; the faith and property of the city are pledged for the redemption of the Water Debt, as well as for the other Stocks of the City; these latter are already secured by active means on hand; the payment of the Water Stock is distributed through a period of forty years; the Sinking Fund, established to redeem the old stocks, is continued and made applicable to the Water Stocks, by repeated enactments of both the state and city governments. This fund alone, without resort to the property of the corporation, is capable of redeeming the debt within that period; its minimum revenue of \$200,000, would alone yield in the 40 years \$8,000,000, and the compounding through that time would increase it \$4,000,000 more."

### EXTRACT,

From the Reports of the Marshals for taking the sixth Census, corrected and prepared at the Department of State, by authority of an act of Congress.

Aggregate value, and produce, and number of persons, employed in Mines, Agriculture, Commerce, Manufactures, &c., exhibiting a full view of the pursuits, industry and resources of the City and County of New-York, in 1840.

# Bill of Mortality.

Showing the number of deaths in the city of New-York during the year 1842.

From the report of the City Inspector, Dr. John H. Griscom, it appears, the number of inferments during the year, exclusive of the premature and still births, was \$,475, being 56 less than in the preceding year. The deaths by consumption amounted to 1,339, being in the proportion of 1 to 6,114 of of the whole. Of those 1,339, 719 only where native of the United States, the remaining 620 being foreigners, a proportion out of all reason when the comparative numbers of the two classes are considered.

1 10 2 years   1,088   1,2	The places of nativity of the persons interred were as follows:— United States 6,222 British provinces, 30 West Indies 26 rehand 1,250 Great Britain 413 Germany 226 Trance 54 Other parts Europe 51 Africa 2 Sorp at sea 2 Inknown, 199  Total, 8,475
----------------------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

^{*} Dr. Hayward in his statistics of pulmonary consumption in the cities of Boston, New-York and Philadelphia, for 30 years, gives the following as the average proporportion of deaths, in the three cities, by consumption, to the whole number of deaths:

	Boston ···																									
In	Philadelph	iia		 		٠.	 ٠	 		 ٠	٠.	 	٠	 ٠	٠.	٠	٠			۰	٠.	٠	٠	1	in	7,003
In	New-York.		٠.		٠.		 		٠.		٠.	 				٠	٠.	ě	٠			٠	٠	1	in	5,447

By the above table it would appear that the ratio of deaths by consumption in New-York is higher than in the other cities, and the natural inference at first sight would be that the climate of the city is peculiarly unfavorable for pulmonary complaints. The researches of the city Inspector, however, tend to the establishment of a different result. He has shown how large a proportion of the interments reported, by this disease, are of foreigners, and gives a reasonable explanation of the causes which induces so great a mortality among them.

^{*} The deaths reported from Intemperance cannot be relied on as the whole truth, because many deaths of which intemperance has been the principal cause, are returned under other causes, mostly apoplexy and consumption. As reported, however, the number of deaths in the last few years, in proportion to the population, exhibits a gratifying decrease. The average proportion of deaths to population in 1885, was 1 to 4,037.

### COLUMBIA COLLEGE.

This Institution was incorporated by royal charter under the name of "King's College," in 1754, and confirmed in its rights by various acts of the State Legislature, especially by an act passed April 13th, 1787. It is situated at a short distance west of the Park, on a beautiful square between Murray and Barclay streets. The Library consists of about 9,000 volumes. This college has always maintained a high character as a seminary of learning, having from the beginning enjoyed the services of eminent scholars in the various departments of instruction.

### FACULTY.

Nathaniel F. Moore, LL. D. President, Rev. John McVickar, S. T. D. Professor of Moral and Intellectual Philo-sophy, Rhetoric, Belles Letters, and Political Economy.

Charles Anthon, LL. D. Jay Professor of the Greek and Latin Languages, and Literature, and Rector of the Grammar School.

James Renwick, LL. D. Professor of Natural and Experimental Philosophy and Chemistry.

Henry J. Anderson, M. D. Professor of Mathematics, Analytical Mechanics,

and Physical Astronomy.

Robert G. Vermilye, A. M. Adjunct Professor of the Greek & Latin Lan-

Hon. James Kent, LL. D. Professor of Law.

Mariano Velasquez de la Cadeva, Professor of Spanish Language and Lite-

rature.

The number of undergraduates at the present time, (January, 1833,) is nine-ty. The whole number of Alumni to 1840, was 1,800. There is a Board of Trustees, twenty-four in number. Commencement takes place on the day preceding the first Wednesday in October. There are two literary societies connected with the college, composed of students and graduates, called the Peithologian and the Philolexian societies,

The Grammar School connected with the college, under the superintendence of Professor Anthon, sustains a high reputation; the number of pupils is

about 200.

### THE UNIVERSITY OF THE CITY OF NEW-YORK.

This Institution was chartered in 1831, and opened for students the following year. The edifice is situated on Washington Square; it is built in the English collegiate style of architecture, of white marble, and presents an imposing front. The number of students in all the departments, in 1842-3, was 679. The Faculty of Science and Letters consists of the following persons, viz:

### MEMBERS EX-OFFICIO.

His Honor the Mayor, and four members of the Common Council.

The University has been in existence but ten years. In that time, it has raised from citizens of New-York about \$225,000 for its establishment and support; and \$13,000 of that sum has been raised in the last four years for the payment of debts, and \$35,000 of it within the last year. The plan and arrangements of the University are laid in the true principles of civil and reliliberty. It was originally intended to be a place open to meritorious youth of humble condition and small means. Such it has been and is—about one-half of all its under graduates have been of this class; and they have been encouraged without distinction of sect or party.

We understand that the present income covers all expenses, and provides for interest on the remaining debt, and keeps the property in repair,—while it gives its professors about \$1,500 a year; and their hope of increasing this amount is made to depend on their own ability and enterprise. The establishment of the New-York Historical Society within the University Buildings, gives the society elegant accommodations at a very low price, and to the University access to a library, which with its own makes up some 18,000 volumes.

### THE MEDICAL DEPARTMENT OF THE UNIVERSITY.

The handsome edifice situated on Broadway, called the "Stuyvesant Institute," has been purchased and converted into a medical college for this Department of the University. The Faculty of Medicine connected with this department is composed as follows:

### FACULTY OF MEDICINE.

Hon. Theodore Frelinghuysen, Chancellor of the University,-President of the Faculty.

235 COLLEGES.

Valentine Mott, M. D. Professor of the Principles, Practice, and Operations of Surgery.

Granville Sharp Pattison, M. D. Professor of General, Descriptive, and

Surgical Anatomy

John Revere, M. D. Professor of the Theory and Practice of Medicine. Martyn Paine, M. D. Professor of the Institutes of Medicine and Materia Mètlica.

Gunning S. Bedford, M. D. Professor of Midwifery and Diseases of Women and Children.

John William Draper, M. D. Professor of Chemistry.

The session of the Medical School commence on the last Monday in October, and continues four months.

The examinations for degrees, commences on the first of March, and are

continued daily.

The following are the requisitions for the Diploma:

1st. The candidate must be 21 years of age.

2d. He must have attended two courses of Medical Lectures; one of which must have been delivered in the Medical Department of the University.

3d. The candidate must have studied medicine for three years, (the terms of attending Lectures being included in these,) under the direction of a respectable Medical Practitioner.

4th. He must write a Medical Thesis, either in the English, Latin, or French

language.

# MEDICAL INSTITUTIONS.

### COLLEGE OF PHYSICIANS AND SURGEONS.

This valuable institution is situated on Crosby-street, in the city of New-York, where lectures are delivered by its Professors in the various departments of medical science. It is governed by a board of twenty-five trustees, the officers of which are the following:

S. Augustine Smith, M.D., President. Thomas Cock, M.D., Vice- Prest. Fanning C. Tucker, Treasurer. Nicoll H. Dering, M.D., Registrar.

J. Augustine Smith, M.D., Professor of Physiology.

Joseph M. Smith, M.D., Professor of the Theory and Practice of Medieine and Clinical Medicine.

John B. Beck, M.D., Prof. of Materia Medica and Med. Jurisprudence.

John Torrey, M.D., Professor of Chemistry and Botany.

Robert Watis, Jr., M.D., Professor of Anatomy. Willard Parker, M.D., Professor of the Principles and Practice of Surgery and Surgical Anatomy.

Chandler R. Gilman, M.D., Professor of Obstetrics and the Diseases of

Women and Children.

James Quackenboss, M.D., Demonstrator of Anatomy.

The winter session, (sub-graduate course,) begins annually on the first Monday of November, and continues until the first of the following March. fee for the full course of lectures by all the Professors, is \$108; but the students are not required to take out all the tickets, during one session. The Matriculation fee is \$5, and entitles the student to the use of the college library. Graduation fee, \$25.

PRACTICAL ANATOMY.

To make the college a more thorough school of Practical Anatomy, the Regents of the University have established a Demonstrator's or Dissecting Room Ticket. The room will be opened on the first Monday of October, under the general supervision of the Professor of Anatomy.

The Demonstrator will attend at such hours during the day and evening as

may be convenient to his class. Attendance in this dissecting-room and at the the Demonstrations, is optional; but every student is earnsstly advised to avail

himself of the opportunity. Tickets, \$5.

Private rooms are provided, at a small expense, for physicians who may wish

to dissect.

GRADUATION.

· Candidates for the degree of Doctor of Medicine must have attended two full courses of lectures, the last in this college; they must also have studied Medicine for three years, under the direction of a regular physician, and have attained the age of twenty-one. Certificates of time and age must be furnished. Each candidate is required to write a Thesis on some subject connected with the science of Medicine, and to hand it in previous to his examination.

The examination of candidates takes place semi-annually: that for graduating in the spring, commences on the first of March, and that for graduation in

the fall, on the second Tuesday in September.
Students have access to the New-York Hospital for a fee of \$6, which also entitles them to the use of the library, and they have free access to the practice of the New-York Eve Infirmary.

#### ALBANY MEDICAL COLLEGE.

The Albany Medical College was chartered February 16, 1839. The charter empowers the trustees to confer the degree of Doctor of Medicine, on the re-

commendation of the faculty and of three of the curators.

The college edifice, which is of brick, three stories high, 120 feet front by 50 feet deep, belongs, with its grounds, to the corporation of the city of Albany, and has been leased to the trustees of the college for twenty years, at the nominal rent of \$1 per year. It is very eligibly situated in Eagle-street, at a short distance from the Capitol.

The expense of fitting up the building, and providing the necessary apparatus, was defrayed by the voluntary contributions of the citizens of Albany. Since that time, the Legislature has appropriated \$15,000 for improving the building, musuem and library. Of this sum \$10,000 have already been expended, and the college possesses new facilities for demonstrations and for study, at least equal to those found in any other Medical ' ollege in this country.

The Museum contains a great number of specimens of healthy and morbid Human Anatomy, of Comparative Anatomy, of Zoology, and of Mineralogy. It contains also a full set of Dr. Thibert's beautiful models of Pathological Anatomy, and Dr. Auzoux's mannikins and models of healthy anatomy. It is at all times open to students, for the purposes of study.

Besides the library for reference, a collection of all the standard elementary

works is set apart for the use of the students during their attendance on lectures,

without any charge.

Ample opportunities are afforded for the study of Practical Anatomy. Saturdays are devoted to clinical instruction, and students have an opportunity of seeing a great number of cases of disease, and of witnessing surgical operations.

The annual course of lectures commences on the first Tuesday in October, and continues sixteen weeks. Six lectures are delivered daily, during the course. The fees for a full course of lectures, are \$70. The Matriculation fee is \$5. The Graduation fee is \$20.

The requirements for graduation are the same as at other incorporated medi-

cal schools in this state.

### BLOOMINGDALE LUNATIC ASYLUM.

## (Connected with the New-York Hospital.)

The Bloomingdale Asylum for the Insane is pleasantly situated near the banks of the Hudson River, distant seven miles from the city of New-York, and has attached to it forty acres of land, laid out in gardens, pleasure grounds, gravel walks and farm lots, well adapted to the unfortunate inmates.

The building is erected on one of the most elevated and healthy sites on the Island, and sufficiently retired for the comfort and convenience of the pa-

These are under the immediate superintendence of a skilful physician, who has devoted a number of years to this particular branch of medical science, and has visited the various lunatic establishments in England, France and Italy: examining the condition of the patients, and inquiring minutely into the mode of treatment pursued therein.

The ordinary affairs of the house are managed by a warden and matron, and a sufficient number of kind and careful nurses, are always ready to attend

to the wants and comforts of the patients.

The whole establishment is under the general direction of a Committee taken from and appointed by the Board of Governors of the New-York Hospital.

### HUDSON LUNATIC ASYLUM.

This asylum was established in 1830, by Dr. Samuel White, of the city of Hudson. It is a spacious stone structure, pleasantly situated on one of the back streets of the city, which is distinguished for salubrity, and the physical circumstances of position, air, water, prospect and general tranquility, are all favorable to the object of such an institution.

Since the establishment of this asylum, it has received 580 patients in all. During the year 1842, the number received was 71. Of these 12 had recently become insane, 10 of whom were cured, and the other two were recovering. Of the 22 cases of long standing, four were cured, two were recovering, 15 were much benefited, and one died.

This asylum is a private institution, and the patients are under the immediate charge of the proprietors, Dr. S. White, a physician of established reputation and great experience, and his son, Dr. George H. White. Their testimony concurs with that of all others, who have had the management of the insane, on the modern system of moral treatment combined with regimen, air, exercise and medicines when the bodily condition requires them, namely, that cases of recent insanity can almost always be cured, but that they sooner become chronic and inveterate than mere bodily disease.

# THEOLOGICAL INSTITUTIONS.

# HAMILTON LITERARY AND THEOLOGICAL INSTITUTION.

Chartered in 1819, and situated in the village of Hamilton, in Madison county. The general control is vested in a Board of 30 Trustees, as follows:

#### FACULTY.

Rev. Nathaniel Kendrick, D.D., Prof. of Systematic and Pastoral Theology. Rev. John S. Maginnis, Professor of Biblical Theology. Rev. Thomas J. Conant, Prof. of Hebrew & of Biblical Criticism & Interp. Rev. George W. Eaton, Professor of Civil and Ecclesiatical History. Rev. Asahel C. Kendrick, Professor of the Greek Language and Literature. Stephen W. Taylor, Professor of Mathematics and Natural Philosophy. John F. Richardson, Professor of the Latin Language and Literature. John H. Raymond, Professor of Rhetoric and of the English Language. Philotys R. Spear, Adjunct Professor of Hebrery. Philetins B. Spear, Adjunct Professor of Hebrew. George R. Bliss, Tutor in Greek Philology.

There are three departments at this institution, viz: The Academic, the Collegiate, and the Theological. The catalogue for 1842-3, shows, in the 1st, 33 students; in the 2d, 153; and in the 3d, 25; making in all 214.

The Academic department embraces a course of study strictly classical, extending through two years, and requiring, as preparatory to admission, that the most thorough course of English studies ever pursued in our best common schools should have been completed.

The Collegiate department embraces much the same course as other colleges in our country, though rather more extensive than some of them, if we may

judge from the syllabus.

The Theological department embraces two distinct courses of study, one designated the "Shorter Course," adapted to students somewhat advanced in life as well as attainments; and the other a very full eircle of studies, comprehending every branch of learning deemed essential to make an accom-plished teacher of the Christian doctrine and practice, church discipline, and pastoral duty.

Though this institution is placed under the particular patronage and control of the Baptists, yet it is open, like most other seats of learning among us, to students having the Christian ministry in view, of all denominations.

One of the peculiarities of this institution, and a very commendable one, is

a regular and systematic instruction in sacred music.

The annual commencement is held on the 3d Wednesday in August.

The total annual expense, including all charges necessary to be paid to the institution, is, in the Academic department \$74; in the Collegiate department £84; and in the Theological department \$54.

Connected with the institution is a farm of 130 acres, and a joiners' shop.

This institution is in a highly flourishing condition.

### UNION THEOLOGICAL SEMINARY.

Founded 1836; and opened for students the same year. The edifice is of brick, s trated in University Place, near Washington Square. It contains a chapel, library, four lecture rooms, and private rooms sufficient for forty students. Every student is subject to a charge of ten dollars per annum, which covers the whole expense for rooms, library and instruction. The library consists of sixteen thousand volumes. It was purchased complete in Germany, from the heirs of Rev. Leander Van Eppa, a distinguished theologiam. The books are extremely rare and valuable. This institution is under the government of a hoard of directors, composed of members of the Presbyterian Church; but the Seminary is open to students of all Christian denominations.

#### FACULTY:

Rev. Henry White, D.D., Professor of Systematic Theology. Rev. Edward Robinson, D.D., Professor of Biblical Literature, and Librarian.

Rev. Absalom Peters, D.D., Professor of Homiletics, Pastoral Theology, and Church Government.

Rev. Samuel H. Cox, D.D., Professor Ecclesiastical History.

Rev. William Patton, D.D., Professor Pastoral Theology. W. Wadden Turner, Instructer in the Elements of Hebrew and the Cognate Languages.

The number of students connected with this institution at the present time, (January, 1843,) is one hundred and four. Although of recent existence, this. Seminary already enjoys a high reputation for the advantages it affords to theological students, in its valuable library, and the learning and ability of its pro-fessors. It has been liberally endowed by merchants and others of the city of New-York.

^{*} This Professorship was endowed by Peter G. Stuyvesant, Esq., and is styled the OSt. Mark's Church in the Bowery Professorship."

[†] This gentleman is greatly distinguished by his Travels in Palestine, &c.

The whole number of Academies in the foregoing list is 142. Besides these, however, there are 17 others, not included in the list, because their annual reports were not made to the Regents. Those 17 are as follow: In 2d District, Oyster Bay Academy, Piermont Academy, Poughkeepsie Classical School, Poughkeepsie Female Academy, Sullivan County Academy, and

White Plains Academy. In 3d District, Schenectally Young Ladies' Seminary, and Clermont Academy. In 4th District, Champlain Academy, Kingsborough Academy, and Moriah Academy. In 5th District, Bridgewater Academy, and Steuben Academy. In 6th District, Avon Academy. In 7th District, Palmyra High School, Yates County Academy and Female Seminary.

These 17, with the Institution for the Deaf and Dumb, and the Grammar Schools of Columbia College, and the New-York University, make the whole number of Academic Schools subject to the Regents, 161, of which, moreover, the Regents incorporated during the year the following 10:

Piermont Academy, at Piermont, in Rockland county, March 15, 1842. De Lancey Institute, at Hampton, in Oneida county, April 13, 1842. Binghamton Academy, at Binghamton, in Broome county, August 23, 1842. Vates Academy, at Yates Centre, in Orleans county, August 23, 1842. Champlain Academy, at Champlain, in Clinton county, August 23, 1842. Affred Academy, at Alfred Centre, in Allegany county, January 31, 1843. Cortlandville Academy, at Cortlandville, in Cortland county, Jan. 31, 1843. Perry Centre Institute, at Perry Centre, in Wyoming county, Jan. 31, 1843. Monroc Academy, at Henrietta, in Monroe county, February 17, 1843. Norwich Academy, at Norwich, in Chenango county, February 14, 1843.

The money distributed among the Academies by the Regents from the income of the Literature Fund, is distributed only to such Academies as make the annual reports required by law. The sum thus distributed, in 1842, was \$40,000, to each of the eight Districts \$5,000, and to the Several Academies in each District, in proportion to the number of their pupils respectively. The following table, which is the summary of a very long detailed statement in the last Annual Report of the Regents, shows the distribution of the above named sums, by districts, with the number of pupils in each district, and other interesting particulars.

The rate per scholar, if the apportionment had been made for the whole state without reference to districts, would have been about \$3.55.

Of the whole number of students claimed to have pursued classical studies, or the higher English course, 6,278 were males, and 5,056 were females.

The following table is interesting as showing both the increase of Academies and an advancing standard of instruction, during the last nine years.

A large proportion of the Academies have permanent endowments and fixed capital in lands, buildings, libraries, apparatus, &c. The aggregate amount of this capital belonging to the 142 reporting Academies of 1842-3, is stated in the last report of the Regents to be \$1,332,857. The aggregate income of all the reporting Academies, for the last year, was as follows:

Revenue from permanent property,	\$21,557		
Tuition money,	178,691		
Income exclusive of public money.	\$200,248		
Aggregate of pay to teachers in 1842-3,	\$196,182

The total number of teachers in 1842-3, was 576, of whom 344 make teach-

ing their permanent profession.

The courses of study in most of the Academies are liberal, embracing most of the valuable branches of human knowledge, as the following list will show. Arithmetic and Algebra, in all; Anatomy in one; Architecture in one; Astronomy, in all but 17; Agricultural Chemistry, in one; Botany, in all but 32; Book-keeping, in all male schools but 31; Biblical Antiquities, in 2; Chemistry, in all but 11; Composition, in all, and as often, on an average, as once in two weeks; Conic Sections, in 8; Conchology in 3; U. In the Libraries of 139 of the Academies, the whole number of volumes is

49,045, and they are generally increasing, as is also their apparatus.

### COMMON SCHOOLS.

The Common School System of this State, considering the whole circle of its relations to our political institutions, our civil condition, and the structure of society among us, may well be deemed the most important institution of the Commonwealth.

The general organization of the system may be compendiously described as

follows:

The head and centre of the system is the Secretary of State, who is, by vir-

tue of that office, Superintendent of Common Schools.

The other permanent administrative agents of the system as constituted by law, are the Clerks and Treasurers of counties; the Supervisors, School Commissioners, Inspectors, Clerks, and Collectors of Towns; and the Trustees of School Districts; all of whom are elected by the people, except the Treasurers of counties, who are appointed by the county Boards of Supervisors. The Comptroller and the Treasurer of the State are associated with the financial

action of the system.

In the year next following each census of the state, whether taken under the authority of the State, or of the United States, that is once in every five years, it is the duty of the Superintendent to apportion the moneys arising from the Common School Fund, among the counties, and the quota of each countiy among the towns and cities therein, according to the ratio of the population in each, compared with that of the whole state. He then certifies such an apportionment to the Comptroller, and sends notice thereof to each County Clerk, stating the day on which the moneys will be payable. That day is the 1st of February in each year, and the moneys are paid by the State Treasurer, on the warrents of the Comptroller, to the several County Treasurers, who pay over the town quotas to the School Commissioners of the respective towns, to be distributed among the school districts.

Each County Clerk, on receiving from the Superintendent, notice of the appearitonment, must give notice thereof to the clerk of the Supervisors, to be laid before their Board at their next meeting, and they must thereupon assess an equal amount upon the towns, to be collected by the town collectors, with legal fees, as they collect their other town taxes. The levy of this sum is the statutory condition on which the School Fund money is distributed to the districts.

These School Commissioners are three in number, elected annually in each town, and they are constituted by statute a corporation so far as to enable them to hold property for the use of the schools in the town, and to sue and be sued in their official capacity. They also set off, arrange, and modify the school districts; and it is their duty annually, in July, to report in writing to the County Clerk, the number of districts in their town; the time during which the schools have been kept therein by qualified teachers; the amount of School Fund money received, as well as the amount received from the Town Collector; the whole number of pupils actually attending school, distinguishing the number over five and under sixteen years of age; and in short, to report every thing relating to their duties, and the general legal condition of the schools.

ry thing relating to their duties, and the general legal condition of the schools.

The two Inspectors in each town, together with the Commissioners, constitute a Board for ascertaining, by examination, the qualifications of teachers. Any two of the Board make a quorum, and their certificate of qualification is necessary to entitle a district to the actual receipt of its quota of the School

Fund money. It is their duty also to visit the schools.

The Trustees of the Districts are also a corporation so far as to enable them to hold property for the use of the District. They take charge of the schoolhouses, their erection and repair; they make the contracts with the teachers; provide fuel for the schools; call meetings of the taxable inhabitants of tho district, for levying whatever assessment may be necessary for district purposes, and apportion such assessments; direct the manner in which the rate bills for teachers' wages shall be made up, with authority to say who shall be exempted, for poverty; in short, they have charge of all the pecuniary concerns of the district, and they must make report annually to the School Commissioners, who, as already stated, report to the County Clerk, and he to the Superintendent, thus making the chain of accountability complete.

Such is an outline of the general organization of the Common School system of this state, as it has existed for many years, and as applied to the towns. The cities, and many of the incorporated villages, are accommodated with various modifications of the system, adapted to their peculiar circumstances. Some additions and improvements have been recently engrafted on the system, but without making any essential changes in its machinery. Among these additions is the appointment of a GENERAL DEPUTY SUPERINTENDENT, who may perform all the duties of the Superintendent, in case of his absence, or of a vacancy in his office. By a law of 1841, also, the board of supervisors in each county, is directed to appoint one, and if the number of school districts exceeds 200, may appoint two Deputy Superintendents, who hold their office for two years, and whose duty it is to visit the schools in their several jurisdictions, and examine into all matters relating to the government, instruction, course of study, text-books, discipline, and the entire economy and management of the schools, school-houses, and districts; to examine the teachers employed, and give or annul certificates of qualifications; and by every means in their power to promote sound education and elevate the cha-They are, also, to make annual reports to the Superinracter of the schools. tendent on all the above named topics. These Deputy Superintendents are paid two dollars per day, for each day of actual service, with the proviso that their entire pay for any one year shall not exceed \$500 to each.

But by far the most important improvement of the system, is the establishment of District School Libraries, by acts passed in 1838 and 1839. Those acts authorize each school district to raise by tax, twenty dollars, in the first instance, and in each subsequent year, ten dollars, to be exclusively applied to the purchase and augmentation of a library for the use of the school. The district clerk, or other person to be appointed at the annual meeting of the district, is to be the librarian, and accountable for the safe keeping of the books, the property in which is vested in the district trustees. To aid these libraries, the sum of \$55,000, from the U. S. Deposit Fund and an equal amount by tax, is to be annually distributed, in like manner as the other school moneys, with the proviso that at the end of five years this sum may be applied in support of the library, or to the payment of teachers' wages, at the option of the district. The regulations for the management of the libraries, are to be furnished by the Superintendent of Common Schools, who is also authorized to select the library books, when so requested by the trustees of a district, in pursuance

of the vote of a district meeting.

By the last annual report of the Superintendent, dated January 12, 1843, it appears that the number of counties in the state was then 59, comprising 830 towns; 9 cities containing 64 wards; and that, on the 1st of July, 1842, the whole number of school districts, as nearly as could be ascertained from the returns, was 10,893, from 248 of which districts no reports had been received. At a fair allowance for the usual increase from the 1st of July, the date of the School Commissioner's reports, up to the date of the Superintendent's report, he estimates the whole number of districts at 11,000.

The whole number of pupils between the ages of 5 and 16 years, residing in all the reporting districts, excluding the city of New-York, was, on the first of January, 1842, as shown by the returns, 601,765; the whole who attended school more or less during the year, with the same exclusion, was 571,130; and the whole number thus attending in the city of New-York, was 27,619.

The average length of time of attendance in the year, was 8 months; but the whole number actually attending, in 43 counties, at the time of visiting them by the county superintendents, is reported as being only 137,324; while the whole number in those 43 counties, returned as having been in school for some portion of the year, was 494,292. This shows great irregularity of attendance.

The number of volumes in the school libraries January 1, 1842, 815,231, showing an increase of nearly 200,000 volumes during the preceding year; and the number will probably be increased by the end of this year to 1,000,000

Out of the city of New-York there are only about 500 colored children attending schools established under the act of 1841, sec. 15. Of these, 84 are in Albany, 31 in Broome county, 175 in Columbia, 140 in Kings, and 58 in Orange. The public money apportioned to them is \$400.

The average of teachers' wages during the past year, was \$17 per month for male teachers, and for female teachers \$7.

The following is the list of Deputy Superintendents in the several counties.

#### COMMON SCHOOL FUND.

#### Capital.

The proceeds of the sales of all lands belonging to the state, are, by the constitution, appropriated exclusively to the Common School Fund. The lands remaining unsold, consist of about 400,000 acres, principally situated in the Fourth Senate district, in the northern part of the state, and are valued by the Surveyor-General at \$200,000—constituting the unproductive capital of the School Fund.

The productive capital of the fund amounted, on the 30th of September last, to \$1,968,290.72, showing a decrease during the fiscal year ending on that date, of \$68,334.96. This fund consists of the following items:

### LITERARY AND SCIENTIFIC INSTITUTIONS.

#### THE NEW-YORK SOCIETY LIBRARY.

This is the oldest existing literary association in the city of New-York, having been founded in 1754. It is governed by a board of fifteen trustees, who are annually elected by the stockholders. The library is one of the largest in the United States, containing forty thousand volumes, and occupies a new and beautiful edifice, situated on Broadway, corner of Leonard-street. Connected with it is a large and excellent reading-room. The "Atheneum" has been recently united with this institution, which now comprises the property and members of both associations. The rights of membership cost \$25; the annual

payment is £6; free rights, (perpetual.), \$100.

The present officers are—Gulian C. Verplanck, Evert A. Bancker, William Inglis, Daniel Seymour, Alexander R. Rogers, Dayton Hobart, Frederick De Peyster, Stephen C. Williams, James D. P. Ogden, Joshua Coit, Rev. Benjamin I. Haight, Robert B. Minturn, Joseph Delafield, Henry Nicoll, and Joseph

G. Cogswell, Trustees.

Alexander R. Rogers, Treasurer.

Philip J. Forbes, Librarian.

#### NEW-YORK HISTORICAL SOCIETY.

This institution was founded in 1804, and has enrolled among its officers and members, at different periods, the most distinguished citizens of the state. It has a library of about twelve thousand volumes, and a cabinet of antiquities and works of art, including busts and portraits of eminent persons, a large and valuable collection of coins, numerous original manuscripts, &c. The rooms of this society are situated in the University building, on Washington square, and are open to members and visiters every day, except Sunday, under the care of the Assistant-Librarian. The publications of the society consist of six volumes of Transactions, or Collections, embracing inquiries and materials relative to the early history of the state and country. Its last volume, (published 1841,) edited by George Folsom, presents the only full account of the Dutch colony that originally settled New-York, hitherto published.

The present officers of this society are the following: Hon. Albert Gallatin, LL.D., President.

William Beach Lawrence, and Rev. Thomas De Witt, D.D., Vice-Pres'ts. Frederick De Peyster, Cor. Secretary. John Jay, Rec. Secretary. Rev. Cyrus Mason, D.D., Treasurer. George Gibbs, Librarian. The Librarian appoints his Assistant: now George H. Moore.

The meetings are held, except during the warm season, on the first Tuesday of every month, when original papers relating to historical subjects are read by the members, and slight refreshments are served. Every member is authorized to introduce strangers from other places at the meetings, which are thus rendered attractive to persons of literary tastes.

#### THE LYCEUM OF NATURAL HISTORY.

This institution was established in 1818, for the purpose of cultivating and encouraging the study of natural science. No other similar association in the United States, has labored more successfully in this department of knowledge. It possesses a valuable library, and an extensive museum of specimens in natural history, collected from all parts of the world, embracing the departments of Mineralogy, Geology, Botany, Zoology, &c. These are contained in a spacious building creeted by the society, on Broadway, (near Prince-street,) where public lectures are also given.

The present officers of this institution are the following:

Joseph Delafield, President. John Augustine Smith, M.D., and Abraham Halsey, Vice-Presidents. John H. Redfield, Cor. Secretary.

John C. Jay, M.D. Treasurer.

Anniversary Orator for 1843, Prof. John W. Draper, M.D.

#### THE NEW-YORK LYCEUM.

This popular institution was established in 1838, for the purpose of diffusing useful knowledge among all classes of the community, by means of lectures, &c. At the annual meeting held May 12th, 1842, the President submitted a report, by which it appeared, that during the year then clapsed the income of the Lyceum amounted to \$4,569.50, and the expenditures during the same period, to \$4,575.95. The income was chiefly derived from the avails of public lectures, and the fees of members; and the expenditures were for the library, reading-room, &c.

The officers are the following:

Isaac T. Smith, President.

Ceorge S. Stitt, Vice-President.

John L. Salisbury, Treasurer.

There are also boards of counsellors and directors.

Lewis G. Forman, Rec. Secretary.

### YOUNG MEN'S ASSOCIATION FOR MUTUAL IMPROVEMENT IN CITY OF ALBANY.

CITY OF ALBANY.

This Institution was founded December 13, 1833, and incorporated by the above title, March 12, 1835. It is undoubtedly one of the most useful institutions in the country. In the language of its charter, it was incorporated "for the purpose of establishing and maintaining a library, reading-room, literary and scientific lectures, and other means of promoting moral and intellectual improvement, with power to take by purchase, devise, or otherwise, and to hold, transfer, and convey real and personal property to the amount of \$50,000; and to take, hold and convey all such books, cabinets, library, furniture, and apparatus as may be necessary for attaining its objects."

Its government is vested in an Executive Committee consisting of a President, three Vice-Presidents, a Cor. and a Recording Secretary, a Treasurer, and ten Managers, elected annually by such members as are entitled to vote by the charter. The association has power, also, to organize from its own members a Debating Society, the officers of which are ex-officio members of the Executive Committee. Any resident of Albany between 16 and 35 years old may become a regular member, if approved by the Executive Committee, and on entering must pay a fee of \$1, and afterwards of \$2 annually.

The sum of \$50 in money, or in books to that amount, constitutes a member for life; and \$5 annually, an honorary member. The Governor, Lt. Governor of the State, and the elergy of the city, are entitled to admission to the

Reading-rooms and the Lectures: members of the Legislature, and of other associations, and officers of the Army and Navy, are admitted to the Readingrooms, and a member of the society may introduce a non-resident to the same privilege for a month.

From November 1st, to March 1st, the charter requires at least one public lec-

ture to be delivered at the Lecture-room in each week.

The annual meeting is fixed on the 1st Monday of February, and on the next

Tuesday the annual elections are made.

The whole number of members is now about 1,200, of whom about 1000 are regular, 150 honorary, and 35 life. The Library contains about 3,200 volumes, and the Reading-room, 89 newspapers, and 25 periodicals.

The Association Rooms are in the Albany Exchange.

#### YOUNG MEN'S ASSOCIATION FOR MUTUAL IMPROVEMENT OF THE CITY OF TROY.

Rooms, 197 River-street. Incorporated in 1835. This institution has a library of about 2,000 volumes and philosophical apparatus. The Readingroom is furnished with periodicals and newspapers, from different parts of the Union. Lectures are occasionally given on different subjects.

#### YOUNG MEN'S ASSOCIATION FOR MUTUAL IMPROVEMENT IN THE CITY OF SCHENECTADY.

Incorporated March 9, 1839, for the purpose of establishing and maintaining a Library, Reading-room, Literary and Scientific Lectures. The library now contains about 3,200 volumes.

Renj. F. Potter, President.

William Lamy, Rec. Secretary.

The Executive Committee consists of seventeen persons, a President, two Vice-Presidents, a Corresponding and Recording Secretary, Treasurer, and eleven Managers, who are chosen annually on the second Wednesday in April.

#### YOUNG MEN'S ASSOCIATION OF THE CITY OF UTICA.

This Institution was incorporated in 1834, and now consists of about 250 members. It occupies rooms in which are contained a library of 2,200 volumes; a Reading-room in which are taken 43 different periodicals and newspapers, and a Lecture-room in which lectures on various subjects are delivered every week from October to May inclusive.

#### YOUNG MEN'S ASSOCIATION OF THE CITY OF BUFFALO.

Incorporated March, 1837. The object of this association is to establish and maintain a Library, Reading-rooms, and Literary and Scientific Lectures. The library consists of 4,000 volumes, and has 416 contributing, and 71 honorary and life members.

Wm. L. G. Smith, President. Theodotus Burwell, Cor. Secretary.

Phineas Sargeant, Librarian.

#### GEOLOGICAL ROOMS.

The State Geological Rooms in the Old State Hall in the city of Albany, contain extensive collections illustrating the Natural History of the State of New-York. The following is a brief account of the arrangement adopted by the Geologists, for the display of the specimens collected during the survey, from

1837 to 1842, inclusive.

By the original plan of the Geological Survey, each Geologist was required to make a collection of eight suites of the rocks, minerals, soils, &c., of his respective district. One of these was to be deposited at Albany, as a State collection, and the seven remaining ones were to be delivered to such Literary Institutions as the Secretary of State should direct. In the departments of Zoology and Botany, a single suite of specimens only, was required. In the Mineralogical department, although their requirement was not made, the plan has been adopted and eight suites have been collected.

By an act of the Legislature of 1840, the Old State Hall, at that time occupied by the State Officers, was appropriated for the purpose of arranging and

exhibiting the collections in the different departments of the survey.

The collection is arranged in five rooms, each one presenting a distinct department of the results of the survey. Four of these rooms are on the ground floor, and one in the second story; the latter occupies the whole length and breadth of the building, being about 70 feet long and 40 wide. This room is

provided with a gallery extending entirely around it.

1. The upper hall is devoted to the Geological Collection strictly, in which the different rocks are arranged in a series of cases in the order in which they occur in nature; beginning with the lowest known rocks, and progressing through the series to the highest rock in the state. A single case is devoted to each rock or group, and contains an assemblage of specimens characteristic of the same. By this arrangement there are nearly the same facilities offered for the study of the rocks and their typical fossils as we have in the field.

2. In the gallery of the same room, another arrangement of similar specimens is designed, viz: a Geographical one, in which the rocks, minerals, ores, &c., from each county in the State, will be arranged in separate cases, thus affording means of reference to the productions of every part of the State. In the same collection it is proposed also to place the soils of each county or town, with their relative situation to the rocks occupying the same. This measure, if carried into effect, will be of immense advantage, rendering the science of Geology, and the whole collection subservient to the interest of agriculture. It will at once be seen that if the qualities of the different soils and their associated rocks are known, the best method of improving them can readily be suggested, and in most cases, as readily carried into effect. For throughout the greater part of the State, the materials for replenishing worn out and exhausted soils are to be found near the surface, and usually readily obtained.

Since Agriculture is about to take its place among the exact sciences, being in fact subject to the laws which govern other sciences or objects in nature, it is desirable to know something of its relations to Chemistry and Geology, as it is indeed no other than the results produced by chemical and vital laws upon

geological productions.

3. On the lower floor one room is devoted to the metallic ores and other minerals of the State, which are arranged according to their associations. In explanation of this mode we remark, that observation has proved that certain mineral substances are always found together, in the same beds and under similar conditions or relations. Those kinds therefore which are found together, are placed in the same case. A visiter is thus able to see at a glance, what minerals occur together, and how they are generally disposed in their native beds, and in what rocks they are likely to be found. Thus, as an example, the magnetic and specular oxides of iron always occur in primary rocks, brown tournaline in primary lime stone, chromate of iron in serpentine, tin in granite, hematitic iron in rocks of the Taconic system, &c.

4. The arrangement of simple minerals in the department of mineralogy proper, is according to their composition, or in other words it is made on chemical principles. This method has been preferred to the natural one in which

they are placed, according to external resemblances.

5. In the middle room are arranged the volumes containing the dried specimens of the New-York plants. They form together an Herbarium of fifty bound folio volumes, arranged according to the natural method, on thick fine paper. It forms a collection of great value, which may always be consulted by those who are pursuing the study of this most useful department of knowledge.

In addition to the collection of plants, one of the different kinds of wood has been commenced. This will exhibit the character of our forest trees, an attempt never before made in this country. The trunks are cut in various directions for showing their structure and grain, and their adaptation to economical purposes. To this collection may hereafter be added the trees indigenous to the west and south; and perhaps also those of foreign growth, and of different climates.

It is further proposed to form a collection of fruits, seeds and roots. That of fruits, it is supposed, is already in part prepared by the Botanists of the survey. In that of seeds and roots, as the different kinds of grain now under culture and others which it is proposed to introduce, it is expected that the State Agricultural Society will interest itself; indeed great interest is already manifested

by the society to promote this object, inasmuch as it will form on important collection to the practical farmer.

6. The collection in Zoology is as yet incomplete; except that of birds, and

as no cases suitable for their arrangement have yet been furnished, they have

not been permanently arranged.

7. Since the collection was put up, numerous paintings and geological sections have been placed in the rooms, which exhibit some of the remarkable features of districts of country not often visited. The geological sections serve to explain more clearly the structure and arrangement of the rocks of the state. These will be still farther increased, and to which also will be added general and local maps, colored according to the rock formations. A great variety of objects therefore are answered by the collection; scarcely any subject of inquiry can come up which is not directly or indirectly illustrated by the museum and natural history.

8. The suites of specimens collected for the literary and scientific institutians of the State, have been packed and forwarded to the five incorporated colleges, viz: Columbia College, and the University of New-York, in New-York city; Union College, at Schenectady; Geneva College, at Geneva; Ham-

ilton College, at Clinton.

This collection is to be considered as a nucleus around which a much more extensive one will aggregate; and we believe that when it shall be known that it is a safe depository for valuable specimens, all the friends of science will be willing to contribute in various ways to its increase. Hence, if the various objects are properly managed and encouraged, this collection may be made to rival the National Institution at Washington, the British Museum, or the Jardin des Plantes at Paris. It will be a place, around which will centre our agricultural societies, mechanic and scientific associations, all of whose objects are almost identical, viz. the dissemination of truth and knowledge.

The Rooms are open to the public, daily, free of charge.

### BENEVOLENT & RELIGIOUS INSTITUTIONS.

### AMERICAN BIBLE SOCIETY.

(Office, 115 Nassau-street, New-York.)

This institution was formed in 1816, for the sole object of increasing the circulation of the Holy Scriptures, without note or comment. It is under the direction of a board of Managers, comprising Eaptists, Episcopalians, Methodists, Presbyterians, Reformed Dutch and Society of Friends.

### NEW-YORK ORPHAN ASYLUM .- (Founded in 1807.)

The Asylum is delightfully situated at Bloomingdale, about five miles north from the City Hall, on the bank of the Hudson river; it is a handsome building, surrounded by nine acres of highly cultivated grounds, which belong to this worthy institution. The average number of male and female orphans at the asylum is about 200.

#### PROTESTANT HALF ORPHAN SOCIETY.

Located in Twelfth-street. Established in 1835.

### ROMAN CATHOLIC ORPHAN ASYLUM .- (Prince st. corner of Mott.)

This institution was incorporated in 1817. The establishment is conducted by the Sisters of Charity. Average number of orphans, male and female. about 200.

#### NEW-YORK FIRE DEPARTMENT FUND.

The object of this institution is to relieve the widows and orphans of deceased firemen, and to assist sick or disabled members and their families. The officers of the Department are elected annually by the representatives of the fire en-gine, hook and ladder and hose companies, and fire wardens. Several thousand dollars are annually expended in deeds of charity under the direction of the trustees.

#### SAILOR'S SNUG HARBOR.

(Situated on the north side of Staten Island.)

This noble charitable Institution, was founded by the testament of Capt. Robert R. Randall, who died in 1801, bequeathing a large landed estate in the city of New-York, the income of which, was to be expended in supporting aged and disabled sailors. It is under the direction of trustees appointed by State authority, who have within a few years caused to be erected a large and splendid edifice, consisting of a centre building and two extensive wings, two stories in height besides the basement; showing a marble front of 225 feet-attached to which is a farm of 160 acres of land.

Upwards of one hundred aged and disabled sailors, find here a safe retreat, free from the cares and storms of life. The remains of the donor are deposited in front of the main building, over wheh has been erected an appropriate

monument to his memory.

#### SEAMEN'S FUND AND RETREAT.

Office, 71 Wall-street, New-York. The Retreat is situated on Staten Island, near the Quarantine Ground.

This is a hospital for the reception of sick and disabled seamen. It was founded by a law of the State in 1830, levying a tax on each master of a vessel of \$1.50 for each foreign voyage, and \$1.00 for every mariner, and 25 cents for each voyage coastwise; which entitles each individual to the benefit of the hospital, while sick or disabled.

The amount collected is about \$27,000 annually—in addition to which, the Retreat has had a loan of \$45,000 from the funds of the Marine Hospital, arising

from alien passengers, arriving at the port of New-York.

The hospital is a valuable building, of three stories; 208 feet long by 52 wide, having wings of 34 feet in depth, and two stories high. This hospital cost \$100,000, attached to which is 37 acres of ground, which cost the State

about \$10,000. It will accommodate 200 patients.

By a law passed March 17, 1843, "The Trustees of the Seamen's Fund and Retreat in the city of New-York, shall eonsist of the following persons to wit:-The Mayor of the said city, the Health Officer, the President of the Ship Masters' Society and Nautical Institution, the President of the Marine Society, together with seven other persons appointed by the Govorner and Senate, four of whom shall be or shall have been shipmasters.

#### ALBANY ORPHAN ASYLUM.

This asylum was founded in 1830, and incorporated March 30, 1831, by the name of "The Society for the Relief of Orphan and Destitute Children in the

City of Albany."

The asylum edifice, which is of brick, and of two stories on a high basement, with five acres of land, is situated about a mile westerly from the capi-tol. The general control of the institution is vested in a board of thirteen managers, having a President, Secretary, and Treasurer, chosen from their own number, and its domestic concerns are conducted by a Superintendent, a Teacher, and an Assistant Tracher, all females. The children are taught the rudiments of learning usual to the common schools; besides which, the girls are taught plain sewing, knitting, and such household matters as their years allow, and the boys are employed occasionally in the garden and about the other grounds. After attaining the age of eight years, they are bound out, the girls till the age of eighteen years, and the boys till twenty-one, to such persons as can furnish a committee of managers satisfactory evidence that they are suitable persons to receive them.

The children at present in the Asylum number from 50 to 60. Not a single death has occurred in the last year. Indeed, the health of this institution, for

a number of years, has been truly remarkable.

The Asylum is supported mainly by donations from the citizens of Albany. During the last year, however, the pressure of the times having been such as materially to diminish the supplies from this source, Gen. Stephen Van Renssolver, who has in his Manor House Garden, at the north part of the city, a superb Century Plant, or American Aloe, (Agave Americana) which has been there for upward of sixty years, and which in June last gave signs of flowering for the first time, permitted it to be exhibited for the benefit of the Asylum. The receipts of the exhibition in Albany amount to \$1,358.27, and in New-York, to \$1,000.10. After deducting expenses the net proceeds amounted to \$1,972.74, with which the managers were enabled to pay the debts and expenses of the Asylum for the year.

The Managers are—Archibald McIntyre, President; John I. Wendell, Ira Harris, James Dexter, Rev. Wm. James, John Q. Wilson, Marcus T. Reynolds, Ichabod L. Judson, James D. Wasson, Eli Perry, Lawson Annesley, Members; John G. Wasson, Secretary; and Dyer Lathrop, Treasurer.

#### ST. JOSEPH'S ROMAN CATHOLIC ORPHAN ASYLUM.

This Asylum was founded in 1832, and incorporated April 12, 1842. It is under the immediate care of "The Sisters of Charity," subject to the general authority and direction of a Board of Managers. The Asylum edifice is on Lodge-street, in the rear of St. Mary's Church. The number of children now in this asylum is between thirty and forty, who are taught the rudiments of common learning, needle work, ordinary household affairs, &c. Besides the children gratuitously taken care of, female boarders are received and instructed for pay, as one of the means of supporting the institution.

The officers are Thomas Gough, President; Owen Murray, Vice-President; John Tracy, Secretary; Peter M. Morange, Treasurer.

#### BUFFALO ORPHAN ASYLUM.

Incorporated April, 1837. The object of this Institution is to provide an asylum for orphan and destitute children. It was first formed in 1835, by a few charitable and benevolent ladies, and is supported by voluntary contributions. The asylum building is situated on Niagara-street, and now contains 50 inmates.

Albert H. Tracy, President. Henry Hamilton, Secretary. William Madison, Steward and Collector.

NOTE. - In addition to the above Institutions, there are numerous other institutions in the State, which have necessarily been omitted for the want of correet information.

### N. Y. STATE AGRICULTURAL SOCIETY.

This society was organized at an Agricultural State Convention, in Albany, in February, 1832, and the same year was incorporated. Until 1840, its proceedings, embracing many valuable papers on American husbandry, were published in "The Cultivator," a paper established by the Society, and placed in charge of the late Judge Buel, as conductor. At its annual meeting, in 1841, the society determined to make a more vigorous effort to prosecute its objects, and appointed a committee to apply to the Legislature for aid; whereupon that body appropriated \$8,000 annually for five years. This sum was apportioned among the counties as follows, but was not to be paid until the several respective societies should raise an equal sum by voluntary subscription.

With this aid, the society, which had struggled for several years for existence, at once rose in public favor. Its first Fair was held at Syracuse in the autumn of 1841, and was well attended. Its second Fair was held at Albany, September, 1842, at which there was a more extensive exhibition of improved farm stock, implements of husbandry, &c., than was ever before made in this country on a similar occasion. The society's next Fair is to be held at Rochester, in September, 1843.

The officers of this society, for 1843, are as follow:

James S. Wadsworth, Livingston, President. Vice-Presidents.

Vice-Presidents.

1st dist., James Lenox, New-York.

2d "Robert Denniston, Orange.

31 "Anthony Van Bergen, Greene.

4th dist., E. C. Delavan, Saratoga.

ADDITIONAL MEMBERS OF THE EXECUTIVE COMMITTEE.

C. N. Bement, Albany. J. McD. McIntyre, Albany, H. D. Grove, Buskirk's Bridge. Thos. S. Hillhouse, Watervliet. Alex, Walsh, Lansingburgh.

Since the passage of the law above named, subordinate societies have been formed in the counties of Albany, Cayuga, Chautauque, Columbia. Chemung, Clinton, Cortland, Delaware, Dutchess, Erie, Essex, Genesee, Greene, Herkimer, Jetierson, Kings, Lewis, Livingston, Madison, Mon-roc, Montgomery, Niagara, Oneida, Onon-laga, Ontario, Orange, Or-leans, Oswego, Queens, Rensselaer, Saratoga, Suffolk, St. Lawrence, Schenectady, Seneca, Steuben, Tompkins, Washington, Wayne and Yates.

These societies report to the State Society, and an abstract of their doings is embraced in the Annual Report of the latter, which is published

by the Legislature.

### NEW-YORK STATE TEMPERANCE SOCIETY.

This society was organized April 2d, 1829. March 6th, 1832, the first number of the Temperance Recorder, (the present organ of the society,) was issued. Since that time, and up to February 1st, 1843, the number of publications issued by this society amount to 15,067,964. The receipts and disbursements of the society, since its organization up to February 1st, 1843, amounted to \$160,159.36.

The following named gentlemen are the present officers of this society:

Hon. R. Hyde Walworth, of Saratoga Springs, President. John Power, D.D., New-York, Hiram Corliss, Greenwich, Garrit Smith, Peterboro, Ben Johnson, Ithaca, Vice-Presidents. Oliver Teall, Syracuse, Ashbel W. Riley, Rochester, Philip Phelps, Chairman, Ira Harris, Azor Taber, Dr. B. P. Staats, Rev. I. N. Wyckoff, D.D., Executive Committee. " B. T. Welch, D.D., Erastus Corning, Bradford R. Wood, of Albany, S. W. Dana, of Troy, Archibald Campbell, Treasurer. Otis Allen, Recording Secretary.

Oliver Scovil, Corresponding Secretary and Office Agent.

Israel Smith, Auditor. Office, 81 State-street, Albany.

### STATE INSTITUTIONS.

#### STATE LUNATIC ASYLUM.

(Situated one mile west of the centre of the city of Utica.)

This Institution was founded by an act of the Legislature, passed March 20, 1836. The work was commenced in the spring of 1838, when the foundations were laid according to a plan contemplating the erection of four buildings, each of five hundred and fifty feet front, placed at right angles to each other, facing outwards. They were to be connected at the angles by verandahs of open lattice work, and each building was to be three stories high exclusive of The surface enclosed by the foundations measures a basement and attic. thirteen and a half acres, of which the buildings are to occupy two and a half acres. The whole grounds include a productive farm of about 130 acres.

One of the above buildings was finished according to the above plan in 1842. It is of the Grecian Doric order of architecture, and is constructed of a dark grey limestone, quarried at Trenton, about eleven miles distant from Utica. This edifice was ready for the reception of patients in January, 1843.

It will accommodate about 300 of them.

Officers.—Charles A. Mann, Dr. C. B. Coventry, Alfred Munson, Thomas H. Hubbard, and Nicholas Devereaux, of Utica; Jacob Sutherland, Geneva; Theodorie Romeyn Beek, Albany; David Buel, Troy; Abraham V. Williams, New-York; Managers. Edmond A. Wetmore, Utica, Treasurer. Amasiah Brigham, Superintendent and Physician. Henry A. Buttolph, Assistant Physician. Cyrus Chatfield, Steward. Mrs. C. Chatfield, Matron.

Although the edifice now occupied, was not ready for the reception of patients till January last, yet the board of managers was organized as early as April 19, 1842, and their first of the series of Annual Reports required by law to be made by the Managers to the Legislature, bears date February 6, 1843.

From this report the following particulars are gathered.

The establishment is supplied with water from a large well dug for the purpose on the premises, and fitted with a force-pump, worked by horse-power, which raises the water to a spacious reservoir in the attic of the centresegment of the edifice, from which it is distributed by pipes whithersoever it is required. The pump can be worked also by hand. The well is 34 feet deep, by 16 feet in diameter for the first 23 feet, and 8 feet from that point to the bottom. The pump tube is of iron, with a two-inch bore, and carries the water from the well to the reservoir, a distance of 450 feet.

The building is warmed by furnaces in the basement, and the heat is transmitted by flues. The cooking, washing, and kitchen-work is all performed

by what is called a cooking-range and boilers connected with it.

The salary of the Superintendent is \$2,000; and the institution is fortunate in having been able to secure for that post a man so eminently qualified for its difficult, delicate, and responsible functions as Dr. Brigham. The salary of the Assistant, the Treasurer, and the Steward is \$500 to each, and of the Ma-

tron \$200.

The use to which the Asylum farm will be put, beyond the keeping of such swine as may be fed by the offal of the establishment, and the few horses and oxen needed for service, will be chiefly the grazing of cows to supply milk, which will constitute a principle article of diet, and a large supply of which will, therefore, be required. An extensive garden for esculent vegetables, fruit, &c. will also be cultivated; and the care of this, and of the farm, will furnish ample opportunity for that moderate and cheerful labor, which forms so important a portion of the curative treatment at such institutions. Mechanical employments will also constitute a part of the system.

According to the United States census of 1840, the whole number of luna-

tics and idiots in this State is 2,340, of whom 739 were at public charge. This would give, on the whole population of 2,428,921, one lunatic or idiot to every 1,038 persons. But the Secretary of State, in 1841, reported 803 lunatics at the public charge. The highest number of both lunatics and idiots, above stated, however, is undoubtedly much below the truth. From fuller data, de-

rived from other sources, the whole number of lunatics in the State cannot probably be less than 1,250, and of idiots, about 1,500. By the act for organizing this Asylum, it is made the duty of the assessors to ascertain the number and names of all insane persons in their respective towns and wards in all the State, and send their lists to the County Clerks to be transmitted to the Treasurer of the Asylum; but this duty has been so little heeded, that the Managers are yet without the means of knowing either the number or condition of this unfortunate class of persons. By the same act, the patients are received at the Asylum at State charge, on the written order of some Court, Judge, Justice, or Supreme Court Commissioner; and if at private charge, only on the sworn certificate of two physicians of good standing, that they (the patients,) are insane.

#### INSTITUTION FOR THE INSTRUCTION OF THE DEAF AND DUMB.

This institution made its first annual report to the Legislature in 1819. It is situated in the city of New-York, a little out from its more compact part. The corporate board, in which is vested the general control of the institution, as stated in the last annual report, (the 24th,) is as follows:

OFFICERS AND DIRECTORS.

Rev. James Milnor, D.D., President.

(Vacant,) 1st Vice-President.

Robert C. Cornell, 2d Vice-President, Robert D. Weeks, Treasurer.

Harvey P. Peet, Secretary.

Lewis Seymour, Timothy Hedges, B. L. Woolley, Wm. L. Stone, Shepherd Knapp, Samuel Downer, jr., Jacob Drake, Wm. Kelley, John R. Willis, Henry E. Davies, Augustin Averill, Frederick A. Tallmadge, Samuel S. Howland, George S. Robbins, Prosper M. Wetmore, William W. Campbell, Benjamin R. Winthrop, William H. Macy, George B. Butler, Israel Russell—Directors.

The teachers and other agents engaged in the instruction and discipline of

the institution are as follows:

Harvey P. Peet, A.M., Principal.

PROFESSORS.

David Ely Bartlett, A.M., John Hancock Pettingell, A.M., Josiah Addison Cary, A.M., Aaron Lucius Chapin, A.M. Oran Wilkinson Morris, A.M., Jacob Van Nostrund, A.M.

Nathan M. Totton, Samuel Sargent, M.D., Physician. Miss Harriet Stoner, Matron. Mrs. Mary E. Mitchill, Assist, Matron. Edmund B. Peet, Steward. Theodore Goerck, Cabinet Maker. John C. Miller, Book-binder. John Hackett, Shoemaker. James M. Trask, Tailor. Garret Mead, Gardener.

This list of teachers, and their designated functions, furnishes a general in-

dication of the objects and employments of the institution.

The number of pupils on the 31st of December, 1841, was 162. During the year 1842, 36 pupils left the institution, and 28 were received, making the number 154 on the 31st Dec. 1842. Of these, 117 were supported by this State; 12 by the city of New-York; 5 by the State of New-Jersey; and the residue by their friends, or by the institution.

RECEIPTS.

The total receipts, during 1842, were \$31,582.23, including the balance of \$1,091.21 on hand at the beginning of the year. Of this amount the principal items were as follows: from the Comptroller on account of the State pupils \$15,379.90; donation under the act of April 3, 1834, \$5,000; from Regents of

the University \$1,013.77; from New-York city \$1,954.69; from New-Jersey \$827.50; from private pupils \$948.61; for sales of clothing and cash advanced to pupils \$884.09; sales of articles from tailor's shop \$487.45; for work done in the book-bindery \$1,000; proceeds of investments in Treasury notes \$5,33.15.

EXPENDITURES.

F 'The total amount of expenditures in 1842, was \$31,596.78; leaving a balance in hand, at the end of the year, of \$2,984.45. The whole amount paid for sa-

laries of teachers and the various assistants, was \$8,876.71.

The average number of deaths per annum, for the last 14 years, has been but 1 to 120. During the year a new brick building has been erected for the accommodation of the mechanical branches of the institution, consisting of a centre, 3 stories high, with two wings of 2 stories, the whole being 140 feet long by 25 feet wide.

TERMS OF ADMISSION.

The annual charge for a pupil is \$130, which includes board and every thing except clothing and travelling expenses. The regular time of admission is the 1st of September in each year; and none are admitted under 12 nor over 25 years of age, unless in very special cases and at the discretion of the Board.

#### NEW-YORK INSTITUTION FOR THE BLIND.

This institution was incorporated by legislative act, passed May 21, 1831, under the name of "The New-York Institution for the Blind." Its general control is vested in a Board consisting of a President, Vice-President, Treasurer, Corresponding Secretary, Recording Secretary and twenty Managers. Its instruction and discipline are entrusted to a Superintendent, Principal Teacher, Teacher of Music, vocal and instrumental, Matron, and Teacher of basket-making, and band-box making.

From the last annual report, dated March 2, 1843, signed by Anson G. Phelps,

From the last annual report, dated March 2, 1843, signed by Anson G. Phelps, President, George F. Allen, Recording Secretary, and Edward Roome, Corresponding Secretary, and from the accompanying reports of sub-committees

of the Board, the following particulars are derived:

In addition to the ordinary rudiments of district schools, the pupils are taught

Natural Philosophy, Astronomy, Algebra, and Geometry.

The pupils, generally, are arranged in two divisions, each receiving instruction in the above branches half the day, and the other half engaged in music and manufactures. The immates of the institution, not included in the above divisions, are eight in number, who are somewhat more advanced in life, and are wholly engaged in accomplishing themselves in some species of manufacture, or in music.

During the last year nine new male, and thirteen new female pupils, were received, making the whole number, at the close of the year, 38 males and 20

females. During the same period 11 left the institution.

The handicraft employments are willow work, weaving, and band-box and other paste-board work. The value of the fabrics of the first kind, made during the last year, was \$2,375.35; of the second, \$733.06; of the third, \$1,579.68.

The report of the physician of this institution shows a most gratifying con-

dition of general health.

During the vacation, in the month of August, an excursion was made into the western part of the State by several of the pupils, under the care of a committee of the Managers and officers, for the purpose of diffusing a fuller and more general knowledge of the character of the Institution, and the great benefits it is capable of conferring on the blind. As the Institution is a public one, this step was eminently proper, and its results were every way favorable.

#### STATE LIBRARY.

This Institution was founded in 1818. It is deposited in the Capitol; and includes an extensive Law Library of about 5,000 volumes, and a library of general literature and science of about the same number, kept in separate apartments.

The general superintendence of the establishment is committed to certain State Officers, viz: the Governor, Lt. Governor, Secretary of State, Comptroller, and Attorney-General, who are styled Trustees of the State Library, and who direct the purchases of books and all other matters connected with the institution, and falling within the powers conferred on them by law. They appoint the Librarian, also, who receives a salary of \$700, and who is required to enforce the regulations prescribed by the Trustees.

The latest report of the Trustees is dated February 14, 1842, and from it the

following facts are derived.

The whole sum appropriated for the use of the Library, for the year ending 30th December, 1841, was \$4,318.58.

The whole sum appropriated for the use of the Library, for the year ending 1st Jan. 1842, was \$4,318.58.

Among the rare and valuable works in this Library are the following:—
"Meerman's Treasury of the Civil and Common Law," in 7 vols. folio. This
fine copy is from the library of the late Baron Boflance, of the Exchequer.
It is a work of high reputation, and it is believed that this is the only copy in the Is a work of high reputation, and it is believed that this is the only copy in the United States. A rich addition is also made to the same department in "The Theodosian Code, with Commentaries by Jacob Gothofried," in 6 vols. folio. The other works, worthy of special notice for their searcity and value are, "Cases of Appeal to the House of Lords," in 12 vols. folio. These cases were published only for the use of members, and to be obtained only on sale of the library of a member of that House.

"Archaeologic, or Practs relating to Antiquities with 55 calc."

"Archwologia, or Tracts relating to Antiquities," in 25 vols. 4to.

"The Gentlemen's Magazine," complete from 1731 to the present time, in 167 vols. This work, containing, as it does, notices of the current events of the day, in one unbroken series, for more than a century of the most interesting period of the world, furnishes a mine of history of incalculable value.
"Journals of the House of Lords and Commons," a complete set from the commencement of the printed series in 1508, with indexes, &c., in 188 vols.

"Reports of Parliamentary Committee, from 1700 to 1800," a complete se-

ries, in 16 vols. folio.

It may be added, that several valuable works have been purchased for the Library, by the agent of the State, in Holland, J. Romeyn Brodhead, Esq.

### STATE PRISONS.

Of these there are two; one at Auburn, in Cayuga county, and the other at Sing-Sing, in Westchester county.

#### AUBURN STATE PRISON.

This prison originated in an act of the Legislature in 1816; and after several experiments and modifications, it was organized on its present plan of disci-pline and management, in 1823. Its general control is vested in a Board of Inspectors; and the internal discipline and management are entrusted to an Agent, with subordinates. The convicts are lodged in separate cells, at night; and during the working hours, by day, they work in company, but in absolute silence, all speech and communication by signs, or looks, being strictly forbidden. Many mechanical employments are pursued, and those who enter without any are taught some trade. Part of the plan has been to let the labor of the convicts to contractors, and the avails of this labor, as well as that which

is done directly on public account, go to defray the expenses of the prison.

The trades plied in the prison are coopering, cotton weaving, shoe-making stone-cutting, spinning, comb making, hame making, carpentry, and silk ma-

king.

The manufacture of silk in this prison, was commenced in May, 1841; and the experiment, so far, has proved very successful. The prison is now a market for cocoons and recled silk, and the supply comes from various and distant points, both in and out of this state. The article at present made for sale is sewing silk, and it is said to be of excellent quality. With the progress of time. the manufacture of other fabries will be introduced; and the business promises to become extensive and very important.

The last Annual Report of the Inspectors, dated January 16, 1843, furnishes

the following particulars for the year ending September 30, 1843.

The total amount of earnings of the prison by convict labor, erection of workshops, &c. is is stated at \$\$1,349.15; and the total amount of eash disbursements, \$67,870.79; showing a balance in favor of earnings, \$13,478.36.

The principal sources and items of these earnings were as follow:—From

the various mechanic shops of the prison \$54,783.56; fees paid by visitors, \$1,692.75; small jobs and articles sold for cash \$1,173.88; materials and labor on workshops within the prison \$13,746.48; increase of inventory in silk and other property \$8,029.98.

The total amount of cash receipts from all sources was \$69,106.09, from which the above disbursemets being deducted, left a cash balance in favor of the

prison of \$1,235.30.

The balances due from contractors on account of their contracts for convict labor was \$12,585.56; and the value of silk, in different forms, on hand, was

\$8,779.56.
The report states that early in the winter just gone a contract was made with a large hardware dealer. Mr. James Horner, of Albany, for the services of not less than 10 or more than 300 convicts, for 5 years, at 30 cents each per day, to make files, and certain articles of cutlery of foreign fabric, and not now made in this country, the contractor to furnish his own water or steam power. It was expected that operations under this contract would be commenced in April or May, 1843.

The whole number of convicts in the prison on the 31st December, 1841, was

707; the number received during 1842, was 244, making a total of 951.

The number discharged during 1842, was as follows:—by expiration of term 187; by pardon 38; removed to New-York House of Refuge 4; escaped 2; removed to Lunatic Assylum 1; died 7; leaving in the prison Dec. 31, 1842-712.

The total number employed under various contracts, were as follows. In cooper's shop 34; cotton weave shop 20; shoe shop 33; machine shop 43; tailor's shop 20; tool shop 28; carpet shop 76; stone shop 28; spin shop 29; comb shop 32; button shop 8; cabinet shop 57; hame shop 55.

The numbers employed on State account were as follow: In carpenter's

shop 12; silk shop 41; making machinery for silk shop 3. The residue were employed in the prison kitchen, yards, hospital and various other services of

the establishment.

The contract price for prison rations was one cent per ration more than in 1841, making a total difference of \$2,073.87. The amount of visitors' fees was \$940.87 less than in 1841; which is ascribed to the travel on rail-roads and the shorter stops consequent thereon. The diminution of earnings in 1842, caused by the operation of the act of April 9, 1842, relative to mechanical employments, is stated at \$1,556.

A new two-story brick workshop, 425 feet long, with a basement under 240 feet of the length, was erected during the year, and very nearly finished

throughout.

The Agent, Henry Polhemus, speaks in very encouraging terms of the success of the silk business as conducted in this prison, and believes it capable of advantageous increase to three or four times its present extent, though 41 con-

victs are now employed in it.

The Prison Physician considers the arrangements for eating, sleeping and working, as exceedingly well calculated to preserve the health of the convicts; and that the regulations for mental and moral improvement cannot be much amended. He states the whole number of deaths in the prison, for the 12 years, ending with 1841, at 162, giving an average of 13) per year, in an average annual number of 662 convicts. Of those 162 deaths, 71 or nearly half were from pulmonary consumption. But in 1842 the whole number of death

was only 7, out of 712 convicts; and in 1841, the deaths were only 9, out of a total number of 707 convicts. He ascribes this remarkable diminution of deaths to the general humane management of the present agent, Mr. Polhemus, and especially to the proper and sufficient feeding and clothing of the prisoners, and to the comfortable warming of the cells and supply of bedclothes in cold weather.

But the most remarkable part of the Physician's Report is that which relates to the use of cold water, by copious affusion upon the naked head and body of

the convicts, as a means of discipline.

This instrument of discipline was introduced, for the first time, in April, 1842, pursuant to a suggestion made some nine months previously, by Mr. Louis Dwight, President of the Boston Prison Disciplin Society, who stated that it had been used in the Massachusetts State Prison for about two years, with eminent success, and to the exclusion of severe and cruel punishments.

The first trial of this means of discipline at Auburn, was made on the 15th of April, by the discharge of two gallons of cold well water, through a funnel having at its vertex a bore of 21 inches in diameter, upon the naked head and body of one of the most refractory of the convicts. This affusion occupied 33 seconds of time. The keeper then stopped; but the convict made no expressions of submission, and two gallons more were applied in the same way. This effectually subdued the obstinacy of the convict, who promised reform, and was sent back to his shop, with no laceration of body or still worse exasperation of feeling, and he continued obedient and compliant.

This method has commended itself so highly at the prison, that the physician

gives it his strongest recommendation.

The report of the Chaplain is also very interesting. Public worship, accompanied by singing, is performed in the prison once every Sabbath; a Sabbath-school is established; the bible is distributed to the convicts, and the Chaplain engages them in personal conversation as much as opportunity allows. These various means unquestionably do much good; and the Chaplain recommends one more celebration of public worship about the middle of the week; prayer with the reading of a short portion of scripture every morning at the table just preceeding breakfast. He testifies to the permanancy and reality of sincere religious convictions in many whom he has had occasion to observe after leaving prison; and furnishes good proof of the great value of the moral and religious means employed in this establishment.

#### MOUNT PLEASANT STATE PRISON.

This prison is at Sing-Sing, on the east shore of the Hudson river, 33 miles above the city of New-York. It was opened for the reception of convicts in It is organized on the plan of the Auburn Prison. The principal practical difference between the two, is in the great amount of convict labor bestowed at the Mount Pleasant Prison, in the marble quarries in the immediate contiguity with the prison and very extensive.

Connected with the principal prison, which is for males, is a well arranged

and distinct department for female convicts.

From the last Annual Reports of the Inspectors, and its accompanying docu-

ments, dated January 13, 1843, the following particulars are derived.

The depressed condition of business in the country generally, materially diminished the receipts of the prison, by its effect on the means of contractors for fulfilling their engagements, and on the market for the various products of convict labor. The recent enactment of the legislature for restricting the employment of convicts in mechanical trades. With the design of carrying out the enactments referred to, the production and manufacture of silk has been introduced at this prison, and efforts have also been made to introduce the manufacture of such articles of hardware as are not made in this country, and the making of which at the prison would not interfere with the mechanical interests of the community. Something has been done beneficially in this way, but the state of the times has very much restricted the results.

The cash receipts for convict labor during the year, ending September 30, 1842, were \$71,923.10; and the disbursements were \$72,801.28.

Some portion of these disbursements were for purposes not ordinary; and much useful labor was performed on the prison and its grounds, giving permanent additional value to the public property, but not producing income. Taking these facts into account, the Agent puts the actual earnings of the establishment, for the year, at \$5,441.90 more than its disbursements.

The principal receipts on account of convict labor in mechanical products, during the year, were as follow: From the smith and lock shop, \$3,747. Hat shop, \$5,504.98. Boot and shoe shops, \$16,090.51. Brass shop, \$3,323.72. Cooper's shop, \$12,214.05. Weave shop, \$7,249.46. Tool shop, \$1,486.69. The work done on the premises for the benefit of the establishment and per-

manently enhancing the property of the State, consisting chiefly of solid masonry, amounted to rising of \$12,000.

The most productive branch of the prison labor has always been in stone quarrying and cutting; but this, during the last year, yielded more than \$10,000

less than during the preceding year.

At the close of the year ending Sept. 30, 1841, there were in prison 741 males and 70 females. During the year ending Sept. 30, 1842, the whole number of males received was 234, of females 35, making a total of 1,080. The number discharged during the last year, by expiration of sentence, was 189 males and 30 females; by pardon, 34 males and 4 females; by death, 31 males and 6 females; making the total number discharged, including one person sent to the Lunatic Asylum, 295, and leaving in prison, Sept. 30, 1842, 720 males and 65 females; or 785 in all, showing a diminution of 26 for the year.

The convicts employed under contracts during the year, were as follows:—

at coopering 91; in carpet shop 57; boot and shoe shops 104; plane-shop 13; lock-shop 20; hat shop 24; saddlery shop 28; in all 337. The residue of convicts were mostly employed in the quarries, in dressing stone, and in masonry

on the premises.

Of the females, 8 to 10 were employed in the silk department, and the rest chiefly in making and mending clothes for themselves and the male convicts.

Of the silk business, the agent states that from 1,000 morus multicaulis trees planted in the fall of 1841 and the spring of 1842, leaves enough were gathered to produce about ten bushels of cocoons of very superior quality, with cuttings from those trees, and with 5000 more, to be planted in the spring of 1843, five acres more were to be covered. The cocoons and raw silk on hand in December, 1842, are valued at \$617.54, and the silk machinery at \$1,310.40.

To superintend and direct the operations in this department, a European bred to the business, Mr. J. Eborall, is employed. Two or three silk looms were to be in operation the current year, and the agent speaks encouragingly of the

prospects of this entire department.

The water required for culinary and all other uses is supplied by well ar-

ranged works, in great abundance and of excellent quality.

The agent speaks in strong terms of the beneficial influence of the labors of the chaplain on the obedience, content, and industry of the prisoners.

Leaving a deficiency in the Tre					00,004	
1842, of					75,556	92

The above estimates of expenditures for the 4th quarter of the present year, include, as it will be perceived, the sum of \$805,474.03, being the amount of outstanding warrants issued prior to the 1st January, 1842. It is presumed, however, that a like sum will remain outstanding on the 1st January next; and that instead of the apparent deficiency as stated above, there will be an actual balance in the Treasury, on the 1st January, 1843, of at least \$224,000. It is expected also, that a like amount of warrants may be outstanding on the 30th June, 1843, and at the end of the succeeding fiscal year.

Of the estimates of the Public Revenue and Expenditures for the half calender year ending 30th June, 1843.

The receipts for the half year are estimated as	s follows:
From customs,	
From lands,	
From treasury notes and loan,	
From miscellaneous sources,	
	\$14,588,113 45

The expenditures for the half calendar year en June, 1843, are estimated at		76

# GENERAL RETURNS OF THE ARMY OF THE UNITED STATES,

Corrected at the Adjutant-General's Office, Dec. 1, 1842.

General Staff,	71 16 2 46	Two Regiments of Dragoons, Four Regiments of Artillery, Eight Regiments of Infantry, Recruits & unattached Soldiers, West Point Detachment,	2,525 5,518
Topographical Engineers, Ordinance Department,	38 335		10,628

The number of non-commissioned officers, musicians, artificers and privates, in the several regiments of dragoons, artillery and infantry, according to the last returns received, is 8,768; which, including the West Point detachment of 111, and other small detachment and recruits en route to join companies, (681,) make an excess over the standard fixed by the act of August 23, 1842, (7,590,) of 1,970 men. This excess is continually decreasing, but will not be entirely merged in the supply of vacancies occasioned by discharges, deaths and desertions, before the close of the year 1843.

In addition to the above, there is a scanty population of Indians residing east of the Rocky Mountains, embracing the immense territory between Mexico on the south and the British possessions on the north. "It is evident, however, from the ruins of villages scattered along the banks of the Upper Missouri and its tributary streams, that these desolate plains once teemed with myriads of human beings. We have the authority of an intelligent British trader, who crossed over to the Missouri in the winter of 1783, for saying that the population, even at that recent date, was perhaps a hundred-fold greater than at the present. The Mandans alone he estimated at 25,000 fighting men."

A reference to the following TABLE, will show the wonderful destruction of human life which pestilence and war have produced, in this region, in less than a century.

### ESTIMATED NUMBER OF VARIOUS WANDERING TRIBES,

Residing east of the Rocky Mountains, but beyond the jurisdiction of the agents of government.

Blackfeet			61,700

^{*} Those marked thus are from actual census.

[†] The small pox was brought from Mexico about the year 1786, which almost depopulated this part of the country. Again, in 1838, the same disease swept off at least one half of the prairie tribes.

- § 15. No drawback shall be allowed but on goods exported within three years from their importation. Ten per cent of the drawback on refined sugar shall be retained, and 2½ per cent on all other drawbacks.

The provisions of this act shall not apply to goods shipped in any port beyond the Cape of Good Hope or Cape Horn, prior to September 1st, 1842.

#### Extract from a TREATY.

To settle and define the boundaries between the Territories of the United States and the Possessions of Her Britannic Majesty in North America, &c.

ARTICLE I.—"It is hereby agreed and declared that the line of boundary shall be as follows: Beginning at the monument at the source of the river St. Croix, as designated and agreed to by the commissioners under the 5th article the treaty of 1794, between the governments of the United States and Great Britain; thence, north, following the exploring line run and marked by the surveyors of the two governments in the years 1817 and 1818, under the fifth article of the treaty of Ghent, to its intersection with the river St. John, and to the middle of the channel thereof; thence up the middle of the main chan-

nel of the said river St. John, to the mouth of the river St. Francis; thence, up the middle of the channel of the said river St. Francis, and of the lakes through which it flows, to the outlet of the Lake Pohenagamook; thence, southwesterly, in a straight line to a point on the northwest branch of the river St. John, which point shall be ten miles distant from the main branch of the St. John, in a straight line, and in the nearest direction—but if the said point shall be found to be less than seven miles from the nearest point of the summit or crest of the highlands that divide those rivers which empty themselves into the river St. Lawrence from those which fall into the river St. John, then the said point shall be made to recede down the said northwest branch of the river St. John, to a point seven miles in a straightline from the said summit or crest; thence, in a straight line, in a course about south, eight degrees west, to the point where the parallel of latitude of forty-six degrees and twenty-five minutes north intersects the southwest branch of the St. John; thence, southerly, by the said branch, to the source thereof in the highlands at the Metjarmette portage; thence, down along the said highlands which divide the waters which empty themselves into the river St. Lawrence from those which fall into the Atlantic ocean, to the head of Hall's stream; thence, down the middle of said stream, till the line thus run intersects the old line of boundary surveyed and marked by Valentine and Collins, previously to the year 1774, as the forty-fifth degree of north latitude, and which has been known and understood to be the line of actual division between the States of New-York and Vermont on one side, and the British province of Canada on the other; and, from said point of intersection, west, along the said dividing line, as heretofore known and understood, to the Iroquois or St. Lawrence river.

ARTICLE II.—"It is moreover agreed, that, from the place where the joint commissioners terminated their labors under the sixth article of the treaty of Ghent, to wit: at a point in the Neebish channel, near Muddy Lake, the line shall run into and along the ship channel between St. Joseph and St. Tammany islands, to the division of the channel at or near the head of St. Joseph's island: thence, turning eastwardly and northwardly around the lower end of St. George's or Sugar island, and following the middle of the channel which divides St. George's from St. Joseph's Island; thence, up the east Neebish channel, nearest to St. George's island, through the middle of Lake George; thence, west of Jonas's island, into St. Mary's river, to a point in the middle of that river, about one mile above St. George's or Sugar island, so as to appropriate and assign the said island to the United States; thence, adopting the line traced on the maps by the commissioners, through the river St. Mary and Lake Superior, to a point nort of He Royale, in said lake, one hundred yards to the north and east of He Chapeau, which last-mentioned island lies near the northeastern point of He Royale, where the line marked by the commissioners terminates: and from the last mentioned point, southwesterly, through the middle of the sound between Ile Royale and the northwestern main land, to the mouth of Pigeon river and up the said river, to and through the north and south Fowl Lakes, to the lakes of the height of land between Lake Superior and the Lake of the Woods; thence along the water communication to Lake Saisaginaga, and through that lake; thence, to and through Cypress Lake, Lac du Bois Blanc, Lac la Croix, Little Vermillion Lake, and Lake Namecan, and through the several smaller lakes, straits, or streams, connecting the lakes here mentioned, to that point in Lac la Pluic, or Rainy Lake, at the Chaudiere Falls, from which the commissioners traced the line to the most northwestern point of the Lake of the Woods; thence, along the said line, to the said most northwestern point, being in latitude 49 deg. 23 min, 55 sec. north and in longitude 95 deg. 14 min. 38 sec. west from the observatory at Greenwich; thence, according to existing treaties, due south to its intersection with 49th parallel of north latitude, and along that parallel to the Rocky mountains. It being understood that all the water communications and all the usual portages along the line from Lake Superior to the Lake of the Woods, and also Grand portage, from the shore of Lake Superior to the Pigeon river, as now actually used, shall be free and open to the use of the citizens and subjects of both countries."

BOUNDARY LINE.—The extent of boundary line separating the United States and territory belonging thereto from the British possessions, and lying

between the monument of St. Croix and the Rocky mountains, is estimated as follows for each adjacent State:

Maine, 460 New-Hampshire, 40	miles.
Vermont, 90	66
New-York,         420           Pennsylvania,         30	66

The whole sum originally issued and loaned to canal and rail-road companies, was \$5,035,700; of this amount, \$3,315,700 has already fallen upon the treasury by the failure of three of these companies to fulfil the obligations which were entered into in their behalf. This leaves a balance of \$1,720,000, on which the respective companies continue for the present to pay the interest.

### STATE CANALS.

The productive property of the State, in addition to the available Funds, before enumerated, are the Public Works, which yielded a revenue in 1842 of \$1,749,204; an amount more than the interest on the whole debt of the State at the present time.

1842,	504,254,029	116,595,233	4,246,487 78	6.8

The amount of taxes has more than doubled since 1835, while the aggregate valuation of 1842, is only \$89,157,065 more than in 1835.

Comparing 1842 with 1836, the diminution in the valuation of per-

sonal estate is	\$16,020,380
And of real estate,	35,502,845

In a single year, from 1835 to 1836, there was an increase in the assessed value of the property of the state, as follows:

Real estate,	\$100,200,200
Personal estate,	2,580,692
Non-resident debts,	
Total increase in a year	\$139,954,080

The following statement shows the counties in which the principal part of this increase on the real estate, from 1835 to 1836, took place, and the decrease in the same counties from 1836 to 1842, viz:

### Commissary-General's Department.

### ARSENALS, ARMS, AND MUNITIONS OF WAR.

The Commissary-General is appointed by the Senate and Assembly, in the same manner as the Secretary of State and the other chief officers of the civil Executive Department, and in like manner holds his office for three years, unless sooner removed by a concurrent resolution of those two bodies. His salary is \$700 a year, payable, as in all other cases, quarterly; and his necessary disbursements in the discharge of his official duties, are also paid out of the trea-

sury, but he receives no fees.

1st Division Gaylord Campbell

He has the general charge and oversight of the arsenals and magazines of the State, which he is required to keep in good repair; and he must attend to the preservation and safe-keeping, cleaning, and repairing of the ordnance, arms, and all munitions of war belonging to the State, for which purpose he has at all times, the control and disposal of them. He must sell out of the arsenals to privates in the militia, on their producing the certificates of their commandants, muskets, rifles, and other arms and accoutrements, proper to the branch of service with which they are respectively connected, at the prices paid for them by the State; he must dispose, on the best terms in his power, of all such arms, ammunition, and other military implements and property, as are deemed unfit for use, make report thereof to the Governor, and pay the proceeds into the Treasury; he must, with the approbation of the Governor, and on the certificate of the commanders of brigades, issue colors and instruments of music to battalions, provided the expense thereof does not exceed the amount of tines actually paid into the Treasury by such brigades; he must issue to the several artillery companies such powder and ball as are needed for practice; and he must make annual report to the Governor of all his doings, and of the amount and condition of the military property of the State, which reports are to be transmitted by the Governor to the Legislature.

From the Commissary-General's last Annual Report, dated January 20th, 1843, and transmitted to the Legislature by the Governor on the 27th of the

same month, the following statements are derived.

The State Arsenals and Magazines are situated in the City of New-York; at Fort Richmond and Tompkins, on Staten Island; at Albany; at Onondaga-Hollow, in Onondaga county; at Banadaigua, in Ontario county; at Batavia, in Genesee county; at Buffalo; at Watertown, in Jefferson county; at Russell, in St. Lawrence county; at Malone, in Franklin county; and at Elizabethtown, in Essex county; and each is under the immediate care and custody of a local agent called a Keeper.

The pieces of Ordnance belonging to the State, in number, kind, and con-

dition, are as follows:

### 1. Inon.

2	2s, do	Mounted.

Total number of brass cannon and howitzers, mounted and dismounted, 274.

Besides which there are 2 brass 10 inch morters; 1 brass 8 inch mortar; 1 brass 5; inch eprouvette, a machine to prove powder.

Of muskets the whole number is 48,473; of rifles 2,888; earbines 1,133; braces of pistols 685; swords 3,811; sets of infantry equipments, 16,958; artillery sword belts, 3,041; sets of drugoon equipments, 500; boxes of musket cartridges with 1,000 in each, 333; of cannon shot for 12s, 9s, 6s, 4s, and 3s, 1,513 fixed rounds; of 8 and 10 inch shell, 535; of howitzer shells for 12s, and 24s, 1,057.

Besides the fixed ammunition above mentioned, there are large quantities of

powder and ball in store, both for ordnance and small arms.

The ammunition issued to artillery companies during the year, was chiefly for 6 pounders, and amounted to 299 quarter carbs of powder, and 1,159 balls. The field pieces issued were 131 iron6s; 23 howitzer 24s, and a very few other pieces.

The arms and accourtements received during the year, from U. S. Ordmanee Department, under the law of Congress for the annual distribution of arms among the States, consisted of 400 percussion cannon locks, at \$7.50; 2,550 sets of infantry accourtements, at \$3.12; 1,700 artillery swords, at \$1.25; 1,700 sword belts and plates, at \$1.50; making a total value of \$20,731.

The report recommends an appropriation by the Legislature, of \$20,000 to

put the arsenals in good repair.

### ONONDAGA SALT SPRINGS.

These celebrated salines are the property of the State. The tract in which they are found, called the "Onondaga Salt Springs Reservation," is in the town of Salina, and embraces within its limits the Onondaga Lake, and the villages of Geddes, Syracuse, Lodi, Salina, and Liverpool. Many years ago the greater part of the reservation was laid out in village plats, and farm and pasture lots, and sold to priva'e citizens, so that the grounds now belonging to the

State, constitute but a small portion of the original tract. The manufacture of salt is carried on at all the above named villages except Lodi. By means of shafts of small bore varying from about 90 to more than 300 feet in depth, tubed and fitted with pumps, the brine is raised and poured into reservoirs, from which it is distributed in pipes to the different works for making salt. Of this brine about 45 gallons furnish a bushel of salt; and the revenue of the State is derived from a duty of 6 cents on each bushel. This duty was originally fixed by the constitution at a shilling; but was reduced to 6 cents by an amendment of that instrument adopted in November, 1833.

Two modes of making salt are in use at these springs, one by the use of artificial heat, and the other by evaporation in the sun. The former process is much the less accurate of the two, and the salt produced by it is of an inferior quality; while the solar salt is purer than any other, and enjoys a high reputation. By those who are thoroughly acquainted with this subject, the duty paid by the manufacturer to the State, constitutes but very little less than half

of the whole cost of production.

The interests of the State on the reservation, are put in charge of two principal officers, designated respectively the Superintendent of Salt Springs, and Inspector of Salt, in the county of Onondaga. The duties of the latter relate chiefly to the quality of the salt, its measurement, packing, and the character of the barrels in which it is sent to market. The Superintendent has the general oversight of the Reservation, the sinking of shafts, the regulation of the pumps, the supply and distribution of the brine to the different works, the care of the State lands to prevent intrusion and trespasses, and the leasing of lots for the erection of works for making fine salt. The granting of the lands set apart for the manufacture of the coarse or solar salt, is vested in the Commissioners of the Land-Office.

The Superintendent and Inspector make annual reports to the Legislature. From the last of these documents, dated at Syracuse, January 6, 1843, the fol-

lowing facts are derived:

During the year 1842, the quantity of salt made and inspected at these salines

was 2,291,903 bushels, on which duty amounted to \$137,514.18.

The following statement may serve to illustrate the effect of the duty on the manufacture. The duty, prior and up to 1834, was a shilling per bushel; and the quantity made in each year, from 1826 to 1833 both inclusive, was as follows:

Year.	Bushels.
1826,	827,508
1827,	983,410
1828,	1,160,888
1829,	1,291,280
1830,	1,435,446
1831,	1,514,037
1832,	1,652,985
1833,	1,838,646

The following statement shows the annual product since the reduction of the duty to 6 cents per bushel.

Year,	Bushels.
1834,	
1835,	2,209,867
1836,	1,912,858
1837,	
1838,	2,575,032
1839,	
1840,	
1811,	
1842	

Of the total quantity of salt annually produced at these springs, about ninetenths are of the kind made by boiling, which usually goes by the name of "fine salt," on account of the minuteness of its crystals; and the other one-tenth, which forms in very much larger crystals, is commonly designated "coarse salt."

### AN ACT to abolish the office of BANK COMMISSIONERS, and for other zurposes.

Passed April 18th, 1843.

The People of the State of New-York, represented in Senate and Assembly, do enact as follows:

§ 1. Every Chartered Bank shall take an account of its notes for circulation on the first day of July, eighteen hundred and forty-three, and shall return to the Comptroller, under the oath of the president and cashier, a statement of all the notes of the bank which it has in possession, or in any way outstanding or in circutation on that day, specifying the amount of bills of each denomination, and the aggregate amount of the whole circulation, and shall at the same time deposite with the Comptroller their plates, and no bank shall after the time in that day to which the return of the president and eashier is made up, issue any of its own notes which have not been countersigned and registered by the Comptroller; but if the Comptroller shall be unable to supply any bank with countersigned and registered notes as fast as such bank may require on and after the first of July, eighteen hundred and forty-three, such bank may be permitted by the Comptroller to re-issue so much of its old circulation within the limits prescribed by law, as may be necessary, not exceeding the amount refurred to be outstanding on that day, nor shall any such issue take place until an application has first been made to the Comptroller for countersigned and registered notes, and refused; and provided also, that the stockholders of any chartered bank shall be individually liable for all the notes of its old circulation which shall be outstanding on and after the first of July, eighteen hundred and forty-four; and after the first day of July, eighteen hundred and forty-four, no bank shall pay out any note of any bank which has not been countersigned and registered at the Comptroller's office, as herein provided. And all the notes of any bank issued prior to first July, eighteen hundred and forty-three, not countersigned and registered, or delivered to the Comptroller to be countersigned and registered, shall on or before the first of July, eighteen hundred and forty-four, be redeemed and destroyed in the presence of the Comptroller, or of some person to be appointed by him for that purpose. And a certificate of the counting and destruction of the notes certified to be destroyed shall be signed and sworn to by the Comptroller or his agent, and an agent appointed by the bank, and deposited in the Comptroller's office,

§ 2. It shall be the duty of the Comptroller to receive and safely keep the plates, to be delivered to him by the banks, as prescribed in section first; and at all times to cause to be printed from said plates, and deliver to each bank such notes, and of such denomination as is now allowed by law, as the bank owning such plates may require, not exceeding, together with outstanding old circulation, and with the notes previously received, the amount of circulation now allowed to such banks by law; and it shall also be the duty of the Comptroller to employ suitable persons whose duty it shall be to countersign such bills in such uniform manner as the Comptroller may prescribe, and every note so countersigned shall, before it is delivered to the bank, be registered in a book to be kept by the Comptroller for that purpose; and the expenses of preparing, countersigning and registering such notes, shall be paid to the Comptroller by the banks receiving the same, in proportion to the number of notes re-ceived. And it shall be competent for the Comptroller, when the plates of any bank are worn or otherwise unfit for use, to require such bank to furnish new

plates, or to procure them himself, at the expense of such bank.

§ 3. Every bank and banking association, shall make a quarterly report to the Comp(roller, commencing on the first Monday in August next, to be continued on the first days of November, February, May, and August thereafter, in each and every year; which said report shall be made on the oath of the president and eashier, and shall contain a true statement of the following items on the morning of the said first Mondays of August before any business of that day. Loans and discounts, over drafts, due from banks, due from directors of said bank, due from brokers, reat estate, specie, eash items, stocks and promissory notes, bills of solvent banks, bills of suspended banks, loss and expense account, capital, circulation, (distinguishing that received from the Comptroller, from the old outstanding bills) profits, amount due to banks, amount due to individuals, amount due to Treasurer of State, amount due to Commissioners of Canal Fund, amount due to depositors on demand, amount due not included under either of the above heads. And it shall be the duty of the Comptroller to publish said reports together in the State paper, accompanied with a summary of the items of capital, circulation and deposites, specie and cash items, public securities, and private securities, and the separate report of each bank shall be published in a newspaper published in the county in which such bank

is situated, at the expense of said bank.

§ 4. The Comptroller shall publish the reports and summary, required by the third section, together in one paper, on or before the twentieth day of August, November, Yebruary, and May in each year, and the expense of such publication shall be defrayed by a per centage assessed upon the capital stock of all the banks and banking associations of the State, and if any bank shall fail to furnish to the Comptroller its quarterly report, in time for such publication, it shall forfeit and pay to the Comptroller the sum of one hundred dollars, to be applied by him to the payment of the expense of publishing the quarterly reports; and if any bank or banking association shall neglect or refuse to make the quarterly report required by the third section for two successive quarters, it shall forfeit its charter (if an incorporated bank,) and its privileges as a banking company, if organized under the law of April, 1838, and may be proceeded against, and its affairs closed in any manner now provided by law, in case of an insolvent bank or banking association.

§ 5. Whenever it shall appear from the reports made by any bank, or in any other way, that the capital of any bank has become impaired and reduced, it shall be competent for the Comptroller to call upon such bank to redeem its circulation while its capital continues so reduced, so that the circulation of such bank shall not exceed that to which its reduced capital would by law en-

title it.

§ 6. The office of bank commissioner is hereby abolished; provided however, that it shall be competent for the Comptroller, whenever he shall have good and sufficient reason to suspect the condition of any bank, or the correctness of its quarterly report, to appoint a special agent to examine the affairs of such bank, and who for that purpose shall have the same powers now vested by law in a bank commissioner. And the expenses of such investigation, if such bank shall be proved to have made a false return, or otherwise to have been guilty of a violation of law shall be paid by said bank; but if it appear that such bank has violated no law, then the expenses of such examination shall be defrayed in the same manner as herein provided for defraying the

expenses of the publication of the quarterly reports.

§ 7. Any bank may at its pleasure, on paying its dues to the safety fund, and on depositing with the Comptroller an amount of money equal to the whole amount which any such bank would be liable to pay to the safety fund during the time of of its original charter, and all other debts and demands against it, windup its affairs, distribute its assets among stockholders, and resign its charter, and close its business, by a resolution passed at a meeting of the stock-holders, and approved of by a majority of stockholders in interest of such bank called for that purpose, a copy of which resolution shall be furnished to the Comptroller, and shall also be published for three successive weeks in the state paper: and if any outstanding notes or other demands are not presented within one year, such bank may deposite with the Comptroller or elsewhere under his direction, and subject to his order, on interest, a sum sufficient to meet such outstanding demands, which when presented to the Comptroller, shall be paid by him out of such sum, and such bank may distribute among its stockholders the surplus of its assets; and after six years from the day on which publication of dissolution was first made, the Comptroller shall return to the stockholders, to be distributed, the remainder of any of the sum so deposited. § 8. All acts heretofore passed that conflict with provisions of this act are

hereby repealed.

### COMMON SCHOOLS.

At the last session of the Legislature, an aet was passed making some important and beneficial amendments of the Common School System. effect on the 1st of June, 1843. Its leading provisions are as follow:

§ 1. Abolishes the offices of Common School Commissioners and Inspectors. § 2. Provides for the election in each town of a "Town Superintendent of Common Schools," to be clothed with the duties of the School Commissioners and inspectors, and such other powers as may be conferred by law; he must give bond with sureties for the faithful application of the school moneys that come to his hands, and he is paid \$1.25 per day for each day necessarily spent

§ 3. Associates the Town Superintendent with the Supervisor and Town

Clerk, in the erection and alteration of school districts.

§ 4. Provides that in every county having more than 150 School Districts, the Board of Supervisors may appoint two county Superintendents, and divide the county into two Superintendencies; and no share of public money shall be apportioned to any county in which a county Superintendent shall not be appointed, unless by the special order of the State Superintendent.

§ 5. Any County Superintendent may be removed by the State Superintendent for cause; and the vacaney supplied by him till the next meeting of the Board of Supervisors, before whom the order of removal with the cause thereof, and

the appointment for the vacancy shall be laid.

§ 6. Provides that no public money shall be paid to a County Superintendent by the Comptroller, without the certificate of the State Superintendent, that the County Superintendent has complied with his instructions and made his annual report.

§ 7. Provides that all appeals now made to the State Superintendent shall first be made to the County Superintendent, whose decision shall be final and conclusive, unless an appeal therefrom be made in fifteen days to the State

Superintendent.

§ 8. Provides that certificates of qualification given to teachers by County Superintendents, may be either general for a county, or special for a town, and valid in each ease till revoked.

### NEW-YORK STATE COURTS.

The Courts of Common Pleas, within their several counties, have a jurisdiction concurrent with the jurisdiction of the Supreme Court in civil cases. They have also an appellate jurisdiction of causes arising in Justices' Courts. The Judges of the Common Pleas, or one Judge of the Common Pleas and two Justices of the Peace form the Court of General Session of each county, which has jurisdiction in all criminal cases of an inferior degree to those the punishment of which is imprisonment in the state prison for a less term than ten years.

The Circuit Courts are each held by a Circuit Judge. Their business is the trial of questions of facts arising upon causes in litigation in the Supreme Court. They have no original jurisdiction. They are Vice-Chancellors except in the first and eighth Circuits. Courts of Oyer and Terminer are held simultaneously with the Circuits. These are courts of criminal jurisdiction, and are constituted of the Circuit Judge and two more of the Judges of the County Courts for the county. They have cognizance of all criminal offences.

The Supreme Court has original jurisdiction of all civil actions, at law, arising within the State. Practically, however, this jurisdiction only extends to actions where the amount in controversy exceeds \$50. It has also an appellate jurisdiction in crimnal cases brought before it from courts having the original jurisdiction, by certiorari or writs of error.

The Court of Chancery comprehends all the courts of equity jurisdiction in the State. Proceedings in it are brought either before the Chancellor or one of the Vice-Chancellors. All actions where relief in equity is sought, may be brought before the Chancellor; and any action where such relief is sought, may also be brought before the Vice-Chancellor of the Circuit in which the cause of action arose, or where either of the defendants live. The proceedings in either case are entitled in Chancery, and the particular court before which they are brought is designated. In addition to his original jurisdiction, the Chancellor has an appellate jurisdiction in all cases decided by a Vice-Chancellor, or by any Surrogate.

Surrogates' Courts—have now the probate of all wills of real as well as personal estate, the control of executors and administrators and the charge of infants' estates. The Chancellor also has power to issue commissions to take proof of wills of both real and personal estates in cases where the witnesses reside out of this State. He also has power to appoint general and special guardians of the persons and the estate of infants.

The Court for the Correction of Errors is constituted of the President of the Senate, Senators, Chancellor, and Judges of the Supreme Court, &c. It has appellate jurisdiction only, and has the review of decrees made by the Court of Chancery, which are brought before it upon appeal, and the judgments of the Supreme Court brought up upon writ of error. When sitting as a court of appeals from the decrees made by the Court of Chancery, the Chancellor has no vote in its decisions, and in like manner when acting upon writs of error from the Supreme Court, the Justices of that Court have no vote. 'The decisions of this court are final.

### ALBANY SEED STORE.

GARDEN and Agricultural Seeds, Flower Seed, Implements, Tools, &c. kept constantly for sale at the Seed Store, 38 Broadway, (formerly North Market-street,) whosesale and retail, consisting of a large assortment. It is the intention of the proprietor to test all seeds of which there is any doubt respecting their vitality, by sowing a few seeds in a small pot, before offering them for sale, and purchasers can test for themselves any seeds of which they are distrustful, by sowing a few in a box of fine earth and placing it in a warm room, exposed to the sun, where, if kept moist, the seed, if good, will vegetate in a reasonable time. In all cases where seeds prove to be bad, they will be replaced by others, or any reasonable satisfaction made.

Persons ordering seeds and implements from a distance, with whom I am unacquainted, without remitting payment, are expected to give references in this city or New-York. Catalogues of the whole collection gratis, and sent to order by mail. WM. THORBURN.

# The Mutual Life Insurance Company of New-York.

THIS Company, having already over three hundred applications for life insurance, amounting to over one million of dollars, the premiums on which are upwards of thirty-three thousand dollars, will grant insurances on lives, upon the mutual principle, at their office, No. 44 Wall-street. Persons may effect insurance with this Company on their own lives or the lives of others, and either for the whole duration of life, or for a limited period. The trustees confidently believe that this institution will afford the most decided advantages to those who wish to insure their own lives or the lives of others.

The terms of insurance are as favorable as those of any similar institution in

the United States.

The nett profits of the business of this Company will be divided among the insured, in proportion to the amount of premium paid by them. By a provision in the charter, the liabilities of the members extend no farther than the amount of the respective premiums paid by them.

The Rates of Insurance on One Hundred Dollars on a Single Life for one

year, are as follows:

# INFLAMED, DISEASED AND WEAK EYES.

Dr. WHEELER, Oculist, 33 Greenwich-street, respectfully informs the public, that in consequence of his practice having become enlarged to so great an extent, he is compelled to confine his office attendance strictly between the hours of 8 A. M. to 1 P. M., after which hours he visits out-door patients.

Notwithstanding that among the many hundreds of cases which Dr. Wheeler

Notwithstanding that among the many hundreds of cases which Dr. Wheeler has attended, many have been operated on by other professors without success, and pronounced by them incurable, he has never failed to eradicate the disease and effect a perfect cure, despite of every disadvantage which may have presented itself, and many instances almost against hope. It is this unprecedented success in the treatment of the various (hitherto considered incurable) diseases of the eye, that enables him with confidence to refer the afflicted, who may be unacquainted with him, and his mild mode of treating the disorders of this organ, to numerous restored patients in the first class of society, respecting his professional skill and abilities, being pre-eminent for his success as a scientific occulist.

Chronic inflammation of the eyelid, or sore eyes, however long standing, can be effectually and permanently cured; films and specks removed, without surgical operation.

#### STRABISMUS, (commonly called Squinting,)

Cured in a few seconds, by Guerin's celebrated plan, which is free from pain or danger. CATARACTS removed by any of the operations practised here or in Europe.

N.B.—To save trouble, correspondents are informed that no letters addressed to Dr. Wheeler can be taken from the post office, unless postage is paid.

New-York, May, 1843.

#### MERCANTILE AGENCY.

This Agency was established in this city, June, 1841, for the purpose of procuring, by resident and special agents, information respecting the standing, responsibility, &c. of country merchants residing in the States of New-York, Ohio, Michigan, Indiana, Illinois, the New-England States, New-Jersey, parts of Missouri and Pennsylvania, and the territories of Iowa and Wisconsin, for the benefit of such merchants in this city as approve the object, and become subscribers to the agency. The principles upon which this business is founded, are such as recommend them to every solvent and upright merchant in the community. The information obtained is from attorneys, cashiers of banks, old merchants, and other competent persons. It is not a system of espionage, but the same as merchants usually employ—only on an extended plan—to ascertain whether persons applying for credit are worthy of the same, and to what extent.

A large number of merchants in this city, in various kinds of business, approve and patronize the Mercantile Agency, and the number is constantly increasing. The greatest care is taken to have agents of intelligence, good judgment, extensive information, and integrity; and the information obtained is imparted to the subscribers confidentially, so as not to injure any one. This Agency has already been instrumental in saving to the subscribers large amounts, and in preventing worthless and unprincipled men obtaining goods on credit from the merchants in this city. It is not known that injustice has been done to country traders by this plan. The tendency of the agency is quite the reverse, and many merchants in the country who have examined into its merits, disinterestedly, unite with merchants in this city, who understand the principles of the Agency, in approving it, and recommending it to the favorable consideration of the mercantile community. Merchants are invited to call, when the terms and conditions will be made known to them. They can also make inquiries, without charge, to a sufficient extent to test the plan, and be satisfied of the value of the information. The agency is now firmly established, and will be made as perfect as possible. It has been, and will be, strictly a mercantile agency for the sole purpose avowed.

LEWIS TAPPAN, corner Hanover and Exchange-streets, New-York.

#### LAW AND PROFESSIONAL AGENCY.

GEORGE WHITE, Attorney and Counsellor at Law, No. 4 Wall-street, New-York city, respectfully tenders his services to the public and to non-residents who may have any business in the line of his profession within the city and State of New-York. Particular attention will be paid to the loaning of money on bond and mortgage, examinations of titles and investments by the purchase of eligible property at favorable periods and at low prices, and to the collection of debts; and the agency of estates will be attended to, security heing given for fidelity, when required. He will also act as commissioner to take testimony in suits pending in other States and Territories. His terms will be reasonable, and every effort made to subserve the interests of those who may confide their business to his charge. Letters must come post paid, addressed to
